SOUTH CAROLINA STATE PLAN

FISCAL YEAR 1979 - 1980

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE
REGION IV
SUITE 903, 101 MARIETTA TOWER
ATLANTA, GEORGIA 30323

OFFICE OF
HUMAN DEVELOPMENT SERVICES

August 2, 1979

Mr. Joe Dusenbury, Commissioner
Vocational Rehabilitation Department
P. O. Box 4945
Columbia, South Carolina 29240

Dear Mr. Dusenbury:

We are pleased to inform you that we have reviewed and approved the Interim State Plan for Vocational Rehabilitation submitted by the South Carolina Vocational Rehabilitation Department and under the authority of the Rehabilitation Act of 1973, as amended. This plan will be effect beginning October 1, 1979 through September 30, 1982.

Please be assured of this office's support of the Department's program in implementing this state plan.

Sincerely,

Stephen J. Cornett
Regional Program Director
Office of Rehabilitation Services

Rehabilitation Act as amended or as stated	45 CFR

PART I

- A. Basic assurances and commitment to Public Law 93-112, as amended by P.L. 93-516, implementing regulations, and policy interpretations.

Section 1. Plan submittal and purpose

Sec. 101 (a)

Sec. 1361.2 (a)

1.1 Submittal and purpose

As a condition to receipt of Federal funds under Title I of the Rehabilitation Act of 1973, as amended, for vocational rehabilitation services and for innovation and expansion grant projects, the S.C. Vocational Rehabilitation Dept.
(name of sole State Agency)

submits this State Plan for vocational rehabilitation services and agrees to administer the program in accordance with this State plan, the Act 1/, and all applicable regulations, policies and procedures established by the Secretary 2/.

1.2 Consolidated VR/DD plan

Sec. 6

Sec. 1361.2 (d)

This is a consolidated State plan for vocational rehabilitation and developmental disabilities which conforms with 45 CFR 1361.2(a).

1/ Unless otherwise stated, "Act" means the Rehabilitation Act of 1973 (P.L. 93-112) as amended

2/ The definitions in the Regulations implementing the Rehabilitation Act of 1973, as amended, apply to the words and phrases used throughout this plan

Effective Date: October 1, 1979

☒ No.

☐ Yes. Attachment 1.2A is a statement of concurrence by the Chairman of the State Developmental Disabilities Planning and Advisory Council and the State agency(ies) which administer the developmental disabilities program. The DD part is attached.

1.3 Services to the blind

Sec. 1361.2(c)

This plan covers vocational rehabilitation services for the blind

☒ No. Attachment 1.3A states the criteria of visual disability distinguishing the responsibilities of the general and blind agencies.

☐ Yes. Attachment 1.3A states the criteria of visual disability distinguishing the responsibilities of the general and blind agencies. (This box will be checked by agencies for the blind and the attachment submitted. Combined agencies will also check this box but will not submit the attachment.)

1.4 Submittal of State plans and plans amendments

Sec. 101(a)

Secs. 1361.2
(b) & (e)

The plan will be submitted every three-years, or amended as necessary to reflect any material change in applicable State law, organization, policy, or agency operations. Amendments will be submitted before they are put into effect or shortly after that time.

Effective Date: October 1, 1979

State South Carolina

1.5 Opportunity for Governor's review and comment

Sec. 1361.3

The Governor will be given opportunity to review and comment on any State vocational rehabilitation plan or amendment or other type of document specified in 45 CFR 1361.3. This opportunity will be provided and any comments by the Governor's Office will be forwarded to RSA in accordance with the same regulation.

Section 2. Legal basis

Sec. 1361.6(d)

The State statutory authority for administration or supervision of the administration of the program by the State agency is The Vocational Rehabilitation Act of South Carolina (1957(50)114)

The State statutory authority for administration by local agencies is N/A.

Attachment 2A lists all laws and interpretations thereof by appropriate State officials directly pertinent to the basic authority and organization for administration or supervision of administration of the vocational rehabilitation program.

Effective Date: October 1, 1979

Section 3. Agency organization

3.1 Designation and authority of sole State agency

Sec. 101(a)(1)(A)

Secs. 1361.6(a)
(c) & (f)

The S.C. State Agency of Vocational Rehabilitation is the sole State agency designated to administer or supervise the administration of the program under this plan. Attachment 3.1A is a certification by the State Attorney General identifying the sole State agency and citing its legal authority to administer or to supervise the administration of the program. On designation of a new State agency, a new State plan will be submitted within 90 days after the new designation. (All references in this plan to "the sole State agency" or to "the State agency" mean the agency named in this paragraph.)

3.2 Type of sole State agency

Sec. 101(a)(1)

Secs. 1361.6(b)
& (c)

The sole State agency is:

- (a) /XX/ a State agency primarily concerned with vocational rehabilitation or vocational and other rehabilitation of handicapped individuals.

(For general or combined VR programs, or for independent State commission for the blind and visually handicapped)

Effective Date: October 1, 1979

State South Carolina

- (b) ☐ a State education or vocational education agency (for general or combined VR programs or for separate VR programs for the blind and visually handicapped)
- (c) ☐ a State agency which includes at least two other major organizational units, each of which administers one or more of the State's major programs of public education, public health, public welfare, or labor. (for general or combined VR programs, or for separate programs for the blind and visually handicapped located in an agency providing assistance or services to the adult blind)

3.3 Organization and functions of the sole State agency and designated State unit

- (a) Attachment 3.3(a)A gives a brief description of the sole State agency's organization and functions, and if applicable, descriptions of the major grant or service programs administered by the sole State agency showing to which organizational units such programs are assigned, and the relationships between the vocational rehabilitation, and other organizational units.
- (b) Attachment 3.3(a)B provides organization charts reflecting (1) the State agency's relationship to the Governor and to overall State Government; (2) the internal structure of the State agency, and (3) the internal structure of the designated State unit.

Sec. 1361.9

3.4 Local administration of Vocational Rehabilitation Program☒ The plan is not administered by local agencies.

☐ The plan is administered by one or more sole local agencies, in accordance with 45 CFR 1361.9, under written agreements with the State agency assuring operation under the supervision of the State agency, in accordance with the State plan, and in compliance with the State agency's statewide standards. Such agreement set forth the methods to be followed by the designated State unit in its supervision of the local agency, including an evaluation of the effectiveness of the local agency's program; and the basis on which the State agency participates financially in locally administered vocational rehabilitation programs under its supervision, and indicates whether the local agency will use another local public or nonprofit agency in the provision of vocational rehabilitation services.

The sole local agency is responsible for administration of all aspects of the program within the political subdivision which it serves.

Effective Date: October 1, 1979

the rehabilitation of a group of individuals, but which are not related directly to the individualized rehabilitation program of any one handicapped individual.

☐ No.

☒ Yes. The designated State unit has established in writing and will maintain policies for the provision of such facilities and services.

6.3 Economic need

Sec. 1361.45(a)

(a) State policy

☐ (1) No VR services are provided contingent on the handicapped individual's economic need.

☒ (2) The handicapped individual's economic need is considered for determining his participation in the cost of all VR services other than evaluation of rehabilitation potential (including diagnostic and related services); counseling, guidance, and referral services; and placement. The designated State unit has established in writing and will maintain its policies on determination of economic need.

 Rehabilitation Act as amended or as stated 45 CFR

be expected to benefit the individual in terms of employability or whether an extended evaluation of rehabilitation potential is necessary to make such a determination. It will place primary emphasis upon the determination of a vocational goal for the individual and his potential for achieving such a goal. The preliminary diagnostic study will be adequate to appraise the individual's current general health status based on available current medical information, whenever possible, and to provide the basis for the determinations described in 45 CFR 1361.34(b). In all cases of mental or emotional disorder an examination will be provided by a physician skilled in the diagnosis and treatment of such disorders or by a psychologist licensed or certified in accordance with State laws and regulations, in those States where such laws and regulations pertaining to the practice of psychology have been established.

(b) Thorough Diagnostic Study

Sec. 1361.35

As appropriate in each case, when an individual's eligibility for vocational rehabilitation services has been determined, there will be a thorough diagnostic study to determine the nature and scope of services needed by the individual. It will consist of a comprehensive evaluation of pertinent medical,

Effective Date: October 1, 1979

psychological, vocational, educational, and other related factors bearing on the individual's handicap to employment and rehabilitation needs. It will be sufficient to determine the VR services which are needed to attain vocational goals of the handicapped individual. It will include, as appropriate, in the individual case, the special examinations and evaluations required by 45 CFR 1361.35(c) through (f). The findings of such study will be recorded in the case record for the individual.

7.5 Conditions for acceptance for extended evaluation

Sec. 7(4)(G)

Sec. 1361.36(a)

The provision of VR services under an extended evaluation to determine vocational rehabilitation potential is based only on (1) the presence of a physical or mental disability which for such individual constitutes or results in a substantial handicap to employment, and (2) the inability, unless there is extended evaluation, to determine whether VR services might benefit the individual in terms of employability.

7.6 Duration, scope of services, and periodic review in the course of extended evaluation and termination of such evaluation

Sec. 7(4)(G)

Secs. 1361.36(b)
(c), (d), & (e)

VR services will be provided during extended evaluation for no longer than 18 months and in conformity with 45 CFR 1361.36(b) and (c). The individual's progress will be

thoroughly assessed as frequently as necessary, but at least once every 90 days while services are provided. Such periodic reports from those providing services as are required by 45 CFR 1361.36(d) will be considered in this assessment. The extended evaluation will be terminated in accordance with 45 CFR 1361.36(e).

7.7 Certification of eligibility, ineligibility, or for extended evaluation

Sec. 1361.37

In each instance, there will be a certification, dated and signed by an appropriate designated State unit staff member, as to eligibility, ineligibility, or extended evaluation. The certification that the individual has met the eligibility requirements specified in Section 7.1 above will be made prior to or simultaneously with acceptance of a handicapped individual for VR services. The certification for extended evaluation and the certification of ineligibility will be issued pursuant to the requirements of 45 CFR 1361.37(b) and (c), respectively.

7.8 Individualized written rehabilitation program

An individualized written rehabilitation program will be initiated and continuously developed for each handicapped individual eligible for VR services and each handicapped individual being provided such services under an extended evaluation, and VR services will be provided in accordance with such program. This program will be developed jointly by the appropriate State unit staff member and the handicapped individual (or, as appropriate, his parent, guardian, or other representative). It will emphasize primarily the determination and achievement of a vocational goal. A copy of the written program, and any amendments thereto, will be provided to the handicapped individual, or as appropriate, his parent, guardian, or other representative. The individualized written rehabilitation program will be administered in accordance with the requirements of 45 CFR 1361.39.

Secs. 101(a)(9) & 102 Sec. 1361.39

The program will be initiated after certification of eligibility or certification for extended evaluation. The program will include at least the information described

in 45 CFR 1361.39(c), as appropriate. The program will be reviewed at least annually, at which time the individual (or, as appropriate, the parent, guardian, or other representative) will be afforded opportunity to review the program and if necessary redevelop its terms jointly with the appropriate State unit staff member. When services are to be terminated on the basis of a determination that the individual cannot achieve a vocational goal, the conditions set forth in 45 CFR 1361.39(e)(1) and (2) will be met. There will be at least an annual review of the ineligibility decision, in which the individual will be given opportunity for full consultation in accordance with 45 CFR 1361.39(e)(3).

Section 8 Methods of administration particular to vocational rehabilitation

8.1 Continuing statewide studies and program evaluation

(a) Conduct of statewide studies

The designated State unit will conduct continuing statewide studies of the needs of handicapped individuals within the State, the State's need for rehabilitation facilities, and the methods by which these needs may be most effectively met. Such studies will be directed toward:

Secs. 101(a)(15)
& (19)Secs. 1361.18 &

(b) Coordinated or joint statewide studies

There is a separate VR agency for the blind in this State

☐ No.☒ Yes. Coordinated or joint statewide studies will be
conducted by the general and blind agencies.(c) Annual evaluation of program effectiveness

A comprehensive evaluation of the effectiveness of the State's VR program in achieving the service goals and priorities established in the plan will be conducted annually. It will measure the adequacy of State unit performance in providing VR services, especially to the most severely handicapped, in the light of State program or financial resources. It will be conducted according to the General Standards for Evaluation promulgated by the Secretary, 45 CFR Part 1362. Findings from this evaluation shall be reflected in the State plan, its amendments and in the development of plans and policies for the provision of VR services either directly by the State unit or within rehabilitation facilities. Reports of such annual evaluations will be available to the public for review.

(d) Changes in policy resulting from statewide studies and annual program evaluation

There have been changes in policy made in the past fiscal year which have resulted from the continuing statewide studies of the needs of handicapped individuals and from the annual evaluation of the effectiveness of the State's vocational rehabilitation program in achieving program goals and priorities and will be conducted according the General Standards for Evaluation issued by the Secretary under Part 1362 and Part 1370 of 45 CFR Chapter XIII.

8.2 Order of selection and outcomes and service goals

(a) Applicability of an order of selection to this agency

This designated unit can furnish and is furnishing VR services to all individuals who apply and have been determined to be eligible or to be in need of an extended evaluation of rehabilitation potential to determine eligibility.

☐ Yes. All such individuals are served with reasonable promptness. No eligible individual has been delayed from receiving services in the past year, because there is not now, nor has there been, during the past year, any shortage of funds, facilities, or other resources necessary for serving all eligible applicants.

☒ No. The following order of selection will be maintained:

- (1) the severely handicapped
- (2) other groups of handicapped individuals decided upon by the State. Attachment 8.2(a)A lists the groups of handicapped individuals in the designated State unit's order of selection which are additional to the Federally mandated priority for the severely handicapped.

(b) Outcomes and service goals

Attachment 8.2(b)A, if required, describes the general outcomes and service goals to be achieved in each priority category within the order of selection in effect in this State unit and the time periods which will be required to achieve such goals.

(c) Special consideration for certain public safety officers

Special consideration will be given in the selection for, and to the provision of, vocational rehabilitation services to those handicapped individuals whose handicap arises from a disability sustained in line of duty while performing as public safety officer, in accordance with 45 CFR 1361.31(c).

8.3 Methods to expand and improve services to the most severely handicapped

Attachment 8.3A describes the methods used to expand and improve services to the most severely handicapped including a description of the method to be used to utilize existing facilities, and also any changes in methods which have been scheduled for the coming fiscal year to strengthen the priority to the most severely handicapped.

8.4 Processing referrals and applications

Sec. 1361.30

The designated State unit has established methods which assure expeditious and equitable handling of referrals and applications for VR services.

8.5 Case recording and authorization of services

(a) Individual case record

Sec. 1361.38

The designated State unit will maintain for each applicant for VR services and for each individual being provided such services, in accordance with 45 CFR 1361.38, a case record which will contain pertinent information about the individual and the services provided. The case record will include, as a minimum and to the extent pertinent, the information and documentation required by 45 CFR 1361.38.

(b) Authorization of purchase of services

Sec. 1361.42

A written authorization of services will be made simultaneously with or prior to the purchase of services and such authorization will be retained. A State unit employee who is permitted to make an oral authorization in an emergency will promptly document any oral authorization in the client's case record and confirm it in writing to the provider of the services.

8.6 Periodic reevaluation of extended employment in rehabilitation facilities

Sec. 101(a)(16)

Sec. 1361.53

The designated State unit will periodically review and reevaluate at least annually the status of handicapped individuals who have been placed by the designated State unit in extended employment in rehabilitation facilities (including workshops) to determine the feasibility of their employment, or training for employment, in the competitive labor market. Maximum effort will be made to place such individuals in competitive employment or training for such employment whenever feasible.

8.7 Individuals determined to be rehabilitated

Sec. 102

Sec. 1361.41

- (a) An individual determined to be rehabilitated will have been, as a minimum, (1) determined to be eligible under 45 CFR 1361.37(a); (2) provided an evaluation of rehabilitation potential and counseling and guidance, as essential VR services; (3) provided appropriate VR services in accordance with the individualized written program; and (4) determined to have achieved a suitable employment objective which has been maintained for at least 60 days.

- (b) Post-employment services will be provided to those individuals determined to be rehabilitated, who require such services, to the extent necessary to maintain suitable employment.

Section 9. General methods of administration

9.1 Methods necessary for proper and efficient administration

Sec. 101(a)(6)

Sec. 1361.10

The State agency employs such methods of administration as are found necessary by the Secretary for proper and efficient administration of the plan and for conduct of all functions for which the State is responsible under the State plan and under 45 CFR Part 1361.

9.2 Consultation with recipients and providers of VR services

Sec. 101(a)(18)

Sec. 1361.19

The designated State unit and any local agency administering the plan in a political subdivision of the State will take into account, in connection with matters of general policy development and implementation arising in the administration of the State plan, the views of individuals and groups of individuals who are current or former recipients of VR services (or as appropriate, their parents, guardians, or other representatives)

providers of VR services, and others active in the VR field. The State unit has established in writing and will maintain a description of the methods to be used to obtain and consider such views on policy development and implementation and assures this description will be available to the public for review and inspection as well as a report of activities which were actually undertaken in this regard during the previous fiscal year.

9.3 Standards for facilities and providers of services

Sec. 101(a)(7)(B)

Sec. 1361.43

The designated State unit has established in writing and will maintain minimum standards for the various types of facilities and providers of services which it uses in providing VR services. The designated State unit will make such standards accessible to State unit personnel and to the public.

9.4 Rates of payment

Sec. 1361.44

Policies governing rates of payment for all purchased VR services have been established in writing. The designated State unit will maintain in accessible form information as to current rates of payment. Vendors providing any services authorized by the designated State unit are required to agree not to charge to or accept from the handicapped individual or his family any payment for such services unless the amount of such service charge or payment is previously known to and, where applicable, approved by the designated State unit.

9.5 Confidential information

Sec. 1361.47

The State agency will adopt and implement such regulations, standards, and procedures as are necessary to meet the requirements on safeguarding confidential information in 45 CFR 1361.47.

9.6 Administrative review of agency action and fair hearing

Sec. 1361.46

The designated State unit has established and will maintain policies and procedures in accordance with 45 CFR 1361.46 that assure to applicants and recipients dissatisfied with any action with regard to the furnishing or denial of VR services an administrative review of such action and, if they are dissatisfied with the finding of the administrative review, an opportunity for a fair hearing before the State director or his designee. Such policies and procedures also insure that each applicant and recipient is informed of such opportunities.

9.7 Reports

Sec. 101(a)(10)

Sec. 1361.21

The State agency will make such reports in such form, containing such information, and at such time, as the Commissioner requires and will comply with such provisions as he finds necessary to assure the correctness and verification of such reports.

9.8 Cooperation with other public agencies

Sec. 101(a)(11)

Sec. 1361.20

Where appropriate, in accordance with 45 CFR 1361.20, the State agency will enter into cooperative arrangements with, and utilize the services and facilities of the State agencies administering the State's public assistance programs, other programs for disabled individuals (including the State's developmental disabilities program), veterans programs, health and mental health programs, education programs, workers' compensation programs, manpower programs, and public employment offices; the Social Security Administration, the Office of Workers' Compensation Programs of the Department of Labor, the Veterans Administration, and other Federal, State, and local public agencies providing services related to the rehabilitation of handicapped individuals. The State agency will enter into specific arrangements for the coordination of services for any individual who is eligible for VR services and is also eligible for services under the Education for All Handicapped Children Act or the Vocational Education Act. The State agency will work toward maximum coordination and consultation with programs for and relating to the rehabilitation of disabled veterans. Where there is a separate State agency for the blind, the two State agencies will cooperate to provide more effective services to the handicapped; e.g., by means of joint planning, reciprocal referral, using each other's services and facilities.

9.9 Cooperative programs utilizing third-party funds

Sec. 1361.13

When the State's share of the cost of a cooperative program for providing VR services or for engaging in administrative activities of the designated State unit is furnished in whole or in part by a State or local public agency other than the designated State unit, each such cooperative program will be based on a written agreement which meets the requirements of 45 CFR 1361.13(a). Services provided in such a cooperative program are VR services:

- (1) which are not services of the cooperating agency to which the handicapped individual would be entitled if he were not an applicant or client of the designated State unit and
- (2) which represent new services or new patterns of services of the cooperating agency.

The costs of administrative activities under such a cooperative program are not attributable to the general expense of State or local government.

9.10 Joint project or program with shared funding and administration

In order to permit the carrying out of one or more joint projects or programs to provide services to handicapped individuals, the designated State unit has requested the Commissioner to authorize it to share funding and administrative responsibility with another agency or agencies of the State or with one or more local agencies.

☒ No.

☐ Yes. For each joint project or program, there is a written agreement which meets the requirements of 45 CFR 1361.11

9.11 Nondiscrimination(a) On basis of race, color, or national origin

Assurance is hereby given that in accordance with Title VI of the Civil Rights Act of 1964 (42 U.S.C. 2000d et seq.) and the Regulations issued thereunder by the Department of Health, Education, and Welfare (45 CFR Part 80), no individual will, on the ground of race, color, or national origin, be excluded from participation in, be denied the benefits of, or be otherwise subjected to discrimination under this plan.

Rehabilitation Act as
amended or as stated

45 CFR

The State agency has established and will maintain methods of administration to assure that each program or activity for which it receives Federal financial assistance will be operated in accordance with the preceding paragraph. Attachment 9.11(a)A contains a description of these methods of administration. The State agency will amend its methods of administration from time to time as necessary to carry out the purpose for which this statement is given. Any amendments will be submitted to the Regional Office of the Department of Health, Education, and Welfare for determination as to adequacy.

The State agency recognizes and agrees that Federal financial assistance will be extended in consideration of, and in reliance on, the representations and agreements made in this statement, and that the United States will have the right to seek administrative and judicial enforcement thereof.

(b) On basis of physical or mental handicap

No otherwise qualified handicapped individual will, solely by reason of his handicap, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving Federal financial participation under this State plan, and the requirements

concerning nondiscrimination specified in regulations implementing Section 504 of the Rehabilitation Act will be observed.

Section 10. VR Services for disability beneficiaries paid from Social Security Trust Funds

Vocational rehabilitation services are furnished to Social Security disability beneficiaries who meet the selection criteria set forth in 45 CFR 1361.114(a) and in accordance with the order of selection prescribed in 45 CFR 1361.114(b), without regard to any other order of selection which would otherwise be followed under the State plan pursuant to Section 101(a)(5)(A) of the Rehabilitation Act of 1973, and in conformity with all other requirements governing the State vocational rehabilitation program which are not inconsistent with 45 CFR 1361, Subpart D. In accordance with 45 CFR 1361.114, services are furnished to beneficiaries with reasonable promptness, without regard to the individual's citizenship, place of residence, or need for financial assistance; with appropriate staff, supervision and training of personnel to carry out the necessary functions in an effective manner; include the full range of services authorized in the Act, subject to the conditions, limitations and provisions with respect to the use and payments of trust funds prescribed in 45 CFR 1361.115 and 1361.116. The State will submit budget estimates in accordance with 45 CFR 1361.117 and reports in accordance with 45 CFR 1361.118.

Section 11. VR services for blind and disabled recipients paid from Supplemental Security Income program funds

Vocational rehabilitation services are furnished to Supplemental Security Income recipients who meet the selection criteria set forth in 45 CFR 1361.124(a) and in accordance with the order of selection prescribed in 45 CFR 1361.124(b), without regard to any other order of selection which would otherwise be followed under the State plan pursuant to Section 101(a)(5)(A) of the Rehabilitation Act of 1973. In accordance with 45 CFR 1361.124, services are furnished to recipients with reasonable promptness; with appropriate staff, supervision and training of personnel to carry out the necessary functions in an effective manner; without regard to any economic need test set forth in the State plan; and include the full range of services authorized in the Act, subject to the conditions, limitations and provisions with respect to the use and payments of supplemental security income program funds prescribed in 45 CFR 1361.125 and 1361.126; and in conformity with all requirements governing the State vocational rehabilitation program which are not inconsistent with 45 CFR Part 1361, Subpart E. The State agency submits budget estimates in accordance with 45 CFR 1361.127 and reports in accordance with 45 CFR 1361.128.

Section 12. State plan for rehabilitation facilities

The designated State unit has established in writing and will maintain a State rehabilitation facilities plan containing an inventory of rehabilitation facilities available within the State and a description of the utilization patterns of the facilities and their utilization potential. The inventory of rehabilitation facilities shall include a determination of needs for new, expanded or otherwise modified rehabilitation facilities or rehabilitation facility services, and a prioritized list of facility projects necessary to achieve short-range State unit goals. The rehabilitation facilities plan shall be developed with the active participation of a representative group of providers and recipients of VR services and shall be available to the public for review and inspection.

Effective Date October 1, 1979

PART II

B. Additional specific commitments required by the Rehabilitation Act Amendments of 1978 (P.L. 95-602)

1. Compliance with the Architectural Barriers Act of 1968

The State agency administering the plan has established in writing and will maintain policies that facilities used in connection with the delivery of services under this plan complies with the Act of August 12, 1968 (Architectural Barriers Act of 1968)

2. Availability of qualified personnel to communicate in client's native language or mode of communication

The State agency has established in writing and will maintain minimum standards that qualified personnel will be available to communicate in the client's native language or mode of communication. (See Part I 4.6 Staffing)

5. Utilization of profitmaking organizations

Sec. 101(a)(21)

The designated State unit elects to enter into contracts with profitmaking organizations for the purpose of providing on-the-job training and related programs for handicapped individuals under Part B of title VI (Projects with Industry and Business Opportunities for Handicapped Individuals).

☐ No.

☒ Yes. For each contract, there will be a determination that the profitmaking organization is being utilized by the State unit on the basis that they are better qualified to provide needed VR services than nonprofit agencies and organizations.

6. Information and referral

Sec. 101(a)(22)

The designated State unit has established information and referral programs in sufficient numbers to assure that handicapped individuals within the State are afforded accurate VR information and appropriate referrals to other State and Federal programs and activities which would benefit them. The staff of such programs shall include interpreters for the deaf to the maximum extent feasible.

7. Administrative review of agency action - IWRP

The designated State unit has established and will maintain policies and procedures that will provide for, upon request of recipients (or, in appropriate cases, parents or guardians) dissatisfied with any determinations made under an IWRP, an administrative review of such decision by the Director of the State unit. Such policies and procedures also insure that (1) each recipient is informed of such opportunities; (2) the final decision concerning the review of any such determination be made in writing by the Director of the State unit and this responsibility is not delegated to any other office or employee; (3) any handicapped individual (or, in appropriate cases, his parents or guardians) who is not satisfied with the final decision made by the Director of the State unit may request the Secretary to review such decision; and (4) upon such request, the Secretary shall conduct a review and make recommendations to the Director as to the appropriate disposition of the matter. (See Part I (7.8)-IWRP).

COMMISSIONER
(Title)

ATTACHMENT 1.3A: CRITERIA OF VISUAL DISABILITY DISTINGUISHING
RESPONSIBILITIES OF THE GENERAL AND BLIND AGENCIES

The S. C. State Agency of Vocational Rehabilitation does not administer the program of vocational rehabilitation of the blind. Vocational rehabilitation of the blind is administered by the separate South Carolina Commission for the Blind as established by state law.

The criteria of visual disability distinguishing the responsibilities of the general and blind agencies are as follows. Those defined as "blind" or with "severe visual disability" are served exclusively by the Commission for the Blind.

(1) "Blindness" is defined as that level of central visual acuity, 20/200 or less in the better eye with correcting glasses, or a disqualifying field defect in which the peripheral field has contracted to such an extent that the widest diameter of visual field subtends an angular distance no greater than 20 degrees and which is sufficient to incapacitate him for self-support, or an 80% loss of visual efficiency resulting from visual impairment in more than one function of the eye, including visual acuity for distance and near, visual fields, ocular, mobility, and other ocular functions and disturbances. (2) "Severe Visual Disability" is defined as any progressive pathological condition of the eye or eyes supported by acceptable medical examination, which in the opinion of the examiner may or will result in legal blindness within 24 months.

§ 71-271. How chapter cited.—This chapter shall be cited as "The Vocational Rehabilitation Act of South Carolina." (1957 (50) 114.)

§ 71-272. Definitions.—For the purposes of this chapter:

(1) The term "Agency" means the State Agency of Vocational Rehabilitation.

(2) The term "Commissioner" means the Commissioner of Vocational Rehabilitation appointed by the Agency.

(3) The term "vocational rehabilitation services" means diagnostic and related services (including transportation) incidental to the determination of eligibility for, and the nature and the scope of, services to be provided; training, guidance and placement services for physically handicapped individuals; and, in the case of any such individual found to require financial assistance with respect thereto, after full consideration of his eligibility for any similar benefit by way of pension, compensation, and insurance, any other goods and services necessary to render such individual fit to engage in a remunerative occupation (including remunerative homebound work), including the following physical restoration and other goods and services:

(a) Corrective surgery or therapeutic treatment necessary to correct or substantially modify a physical or mental condition which is stable or slowly progressive and constitutes a substantial handicap to employment, but is of such a nature that such correction or modification

VOCATIONAL REHABILITATION LAW

may reasonably be expected to eliminate or substantially reduce such handicap within a reasonable length of time;

(b) Necessary hospitalization in connection with surgery or treatment specified in paragraph (a) of this subsection;

(c) Such prosthetic devices as are essential to obtaining or retaining employment;

(d) Maintenance shall be furnished only in order to enable an individual to derive the full benefit of other vocational rehabilitation services being provided;

(e) Tools, equipment, initial stocks and supplies (including equipment and initial stocks and supplies for vending stands), books and training materials, to any or all of which the State may retain legal title; and

(f) Transportation (except where necessary in connection with determination of eligibility or nature and scope of services) and occupational licenses.

Such term also includes:

(g) The acquisition of vending stands or other equipment and initial stocks and supplies for use by severely handicapped individuals in any type of small business, the operation of which will be improved through management and supervision by the State Agency; and

(h) The establishment of public and other nonprofit rehabilitation facilities to provide services for physically handicapped individuals and the establishment of public and other nonprofit workshops for the severely handicapped.

(4) The term "*physically handicapped individual*" means any individual, except an individual qualifying under vocational rehabilitation of the blind, who is under a physical or mental disability which constitutes a substantial handicap to employment, but which is of such a nature that vocational rehabilitation services may reasonably be expected to render him fit to engage in a remunerative occupation, and persons who are severely handicapped and who are of employable age with a physical or mental disability so handicapping as to require that they be institutionalized or have the services of an attendant in order to provide themselves with their daily living requirements.

(5) The term "*remunerative occupation*" includes employment as an employee or self-employed; practice of a profession; homemaking, farm or family work for which payment is in kind rather than in cash; sheltered employment, and home industry or other homebound work of a remunerative nature.

(6) The term "*rehabilitation facility*" means a facility operated for the primary purpose of assisting in the rehabilitation of physically handicapped individuals:

VOCATIONAL REHABILITATION LAW

(a) Which provides for one or more of the following types of services:

- (i) testing, fitting, or training in the use of prosthetic devices,
- (ii) prevocational or conditional therapy,
- (iii) Physical or occupational therapy,
- (iv) adjustment training or
- (v) evaluation or control of special disabilities; or

(b) Through which is provided an integrated program of medical, psychological, social, and vocational evaluation and services under competent professional supervision; *provided*, that the major portion of such evaluation and services is furnished within the facility and that all medical and related health services are prescribed by, or are under the formal supervision of, persons licensed to practice medicine or surgery in the State.

(7) The term "*workshop*" means a place where any manufacture or handiwork is carried on and which is operated for the primary purpose of providing remunerative employment to severely handicapped individuals who cannot be readily absorbed in the competitive labor market.

(8) The term "*nonprofit*," when used with respect to a rehabilitation facility or a workshop, means a rehabilitation facility and a workshop, respectively, owned and operated by a corporation or association, no part of the net earnings of which inures, or may lawfully inure, to the benefit of any private shareholder or individual and the income of which is exempt from taxation under § 501 (c) (3) of the Internal Revenue Code of 1954.

(9) "*Establishment of a workshop or rehabilitation facility*" means:

(a) In the case of a workshop, the expansion, remodeling, or alteration of existing buildings necessary to adapt such buildings to workshop purposes or to increase the employment opportunities in workshops, and the acquisition of initial equipment necessary for new workshops or to increase the employment opportunities in workshops; and

(b) In the case of a rehabilitation facility, the expansion, remodeling, or alteration of existing buildings, and initial equipment of such buildings, necessary to adapt such buildings to rehabilitation facility purposes or to increase their effectiveness for such purposes (subject, however, to such limitations as the Secretary of the Department of Health, Education, and Welfare may by regulations prescribe in order to prevent impairment of the objectives of, or duplication of, other Federal laws providing Federal assistance to states in the construction of such facilities) and initial staffing thereof (for a period not exceeding one year).

(10) The term "*eligible physically handicapped individual*," when used with respect to diagnostic and related services, training, guidance and placement, means any physically handicapped person, except a person

VOCATIONAL REHABILITATION LAW

qualifying under vocational rehabilitation for the blind, whose vocational rehabilitation or self care rehabilitation is determined feasible by the Commissioner, and when used with respect to other vocational rehabilitation services means an individual meeting the above requirement who is also found by the Commissioner to require financial assistance with respect thereto, after full consideration of his eligibility for any similar benefit by the way of pension, compensation and insurance.

(11) The term "*self care rehabilitation services*" means such diagnostic, psychological, medical, surgical, physical restoration, guidance, training and related services including equipment and prosthetic appliances and training in their use needed to enable a severely handicapped person to dispense with or largely dispense with the need for institutional care or for the services of an attendant and to achieve, in so far as practicable, the ability for independent living. (1957 (50) 114; 1961 (52) 255.)

(12) The term 'eligible' or 'eligibility' when used in relation to an individual's qualification for vocational rehabilitation services means a certification that (1) a physical or mental disability is present; (2) a substantial handicap to employment exists; and (3) vocational rehabilitation services may reasonably be expected to render the individual fit to engage in a gainful occupation.

§ 71-273. Declaration of policy.—It is hereby declared to be the policy of this State to provide rehabilitation services to the extent needed and feasible, to eligible handicapped individuals throughout the State, to the end that they may engage in useful and remunerative occupations to the extent of their capabilities, thereby increasing their social and economic well-being and that of their families, and the productive capacity of this State and nation, also thereby reducing the burden of dependency on families and taxpayers. (1957 (50) 114.)

§ 71-274. State Agency for Vocational Rehabilitation; appointment, qualifications and terms of members.—The Governor shall appoint a State Agency of Vocational Rehabilitation to be composed of seven members, which Agency shall provide for the administration of this chapter. The members of the Agency shall consist of one member from each congressional district and one member at large. The Governor, upon the advice and consent of the Senate, shall appoint the members. The members first appointed having been designated by the Governor to serve for terms of one, two, three, four, five, six and seven years respectively, each member of the Agency thereafter shall be appointed for a term of seven years. The terms of office shall always remain staggered so that the term of one member shall expire every year with appointments to fill unexpired terms caused by death, resignation or disability. (1957 (50) 114.)

VOCATIONAL REHABILITATION LAW

§ 71-275. Chairman of Agency; meetings, compensation and mileage.—The Agency shall elect a chairman and shall meet quarterly in regular session and on call by the chairman when necessary for the transaction of Agency business. Agency members shall receive such per diem and mileage as is provided by law for members of boards, commissions and committees. (1957 (50) 114.)

§ 71-276. Duties and powers of Agency generally.—The Agency shall provide the vocational rehabilitation services authorized by this chapter to every physically handicapped individual determined by the Commissioner to be eligible therefor, as defined by § 71-272, subsection (10), and in carrying out the purposes of this chapter, the Agency is authorized, among other things:

(1) To cooperate with other departments, agencies and institutions, both public and private, in providing the services authorized by this chapter to disabled individuals, in studying the problems involved therein, and in establishing, developing and providing in conformity with the purposes of this chapter, such programs, facilities and services as may be necessary or desirable;

(2) To enter into reciprocal agreements with other states to provide for the services authorized by this chapter to residents of the states concerned;

(3) To conduct research and compile statistics relating to the provision of services to or the need of services by disabled individuals;

(4) To enter into contractual arrangements with the Federal Government and with other authorized public agencies or persons for performance of services related to vocational rehabilitation;

(5) To contract with schools, hospitals, and other agencies, and with doctors, optometrists, nurses, technicians and other persons, for training, physical restoration, transportation, and other vocational rehabilitation services;

(6) To take such action as may be necessary to enable the agency to apply for, accept and receive for the State and its residents the full benefits available under the Vocational Rehabilitation Act of Congress and any amendments thereto, and under any other federal legislation or program having as its purpose the providing of, improvement or extension of vocational rehabilitation services.

The Agency shall not assume responsibility for permanent custodial care of any individual and shall provide rehabilitation services only for a period long enough to accomplish the rehabilitation objective or to determine that rehabilitation is not feasible through the services which can be made available to the individual being served. (1957 (50) 114; 1961 (52) 255.)

§ 71-277. Appointment and qualifications of Commissioner.—The Agency shall appoint a Commissioner of Vocational Rehabilitation, in accordance

VOCATIONAL REHABILITATION LAW

with established personnel standards and on the basis of his education, training, experience and demonstrated ability. The Commissioner shall serve as secretary and executive officer of the Agency. (1957 (50) 114.)

§ 71-278. Duties and powers of Commissioner generally.—In carrying out his duties under this chapter, the Commissioner:

(1) Shall, with the approval of the Agency, make regulations governing personnel standards, the protection of records and confidential information, the manner and form of filing applications, eligibility, and investigation and determination therefor, for vocational rehabilitation and other services, procedures for fair hearings and such other regulations as he finds necessary to carry out the purposes of this chapter;

(2) Shall, with the approval of the Agency, establish appropriate subordinate administrative units;

(3) Shall, with the approval of the Agency, appoint such personnel as he deems necessary for the efficient performance of the functions of the Agency;

(4) Shall prepare and submit to the Agency annual reports of activities and expenditures and, prior to each regular session of the legislature, estimates of sums required for carrying out this chapter and estimates of the amounts to be made available for this purpose from all sources;

(5) Shall make certification for disbursement, in accordance with regulations, of funds available, for carrying out the purposes of this chapter;

(6) Shall, with the approval of the Agency, take such other action as he deems necessary or appropriate to carry out the purpose of this chapter;

(7) May, with the approval of the Agency, delegate to any officer or employee of this Agency such of his powers and duties, except the making of regulations and the appointment of personnel, as he finds necessary to carry out the purposes of this chapter. (1957 (50) 114.)

§ 71-279. Administration of chapter.—This chapter shall be administered under the general supervision and direction of the Agency by the Commissioner. (1957 (50) 114.)

§ 71-280. To whom services available; plan effective throughout State.—Pursuant to the policy declared in § 71-273, the vocational rehabilitation services shall be provided under this chapter to persons throughout the State, and the vocational rehabilitation plan adopted pursuant to this chapter shall be in effect in all political subdivisions of the State. (1957 (50) 114.)

§ 71-281. Services to be available to disabled civil employees of United States.—Rehabilitation services provided under the State plan shall be available to any civil employee of the United States disabled while in the

VOCATIONAL REHABILITATION LAW

performance of his duty, on the same terms and conditions as apply to other persons. (1957 (50) 114.)

§ 71-282. Vocational rehabilitation fund.—There is created a special fund, to be known as the vocational rehabilitation fund. The fund shall consist of all moneys appropriated by this State and all moneys received from the United States or any other source for such purpose, as provided by this chapter. All moneys in this fund shall be deposited, administered, and disbursed in the same manner and under the same conditions and requirements as provided by law for other public funds in the State Treasury. All moneys in this fund are appropriated and made available to the Agency, and shall be expended solely for the purposes of this chapter. Any balances in the fund shall not lapse at any time but shall be continuously available to the Agency for expenditure consistent with this chapter. The Agency, acting through the Commissioner shall issue its requisition for payment of all costs of administering this chapter to the Comptroller General, who shall draw his warrant in the usual form provided by law on the State Treasurer, who shall pay it by check on the vocational rehabilitation fund. (1957 (50) 114.)

§ 71-283. Acceptance and use of gifts, etc., Federal grants and other funds.—(1) The Commissioner may, with the approval of the Agency, accept and use gifts made unconditionally by will or otherwise for carrying out the purposes of this chapter. Gifts made under such conditions as in the judgment of the Agency are proper and consistent with the provisions of this chapter may be so accepted and shall be held, invested, reinvested, and used in accordance with the condition of the gift.

(2) The acceptance of Federal funds and other funds, and their use for vocational rehabilitation, subject to such restrictions as may be imposed by the donor and not inconsistent with this chapter, is hereby authorized.

(3) Federal grants and donations for vocational rehabilitation services, unless otherwise restricted, shall be available for all vocational rehabilitation services provided under the State plan, and also for the purpose, whenever Federal funds are made available to the State under § 3 of the Federal Vocational Rehabilitation Amendments of 1954, for the extension and improvement of vocational rehabilitation services, or under § 4 of such act for projects for research, demonstrations, training and traineeships, and for the planning for and initiating expansion of vocational rehabilitation services under the State plan. (1957 (50) 114.)

§ 71-284. Appropriations.—The General Assembly shall appropriate for vocational rehabilitation such sums as are necessary, along with available Federal and other funds, to carry out the purposes of this chapter. (1957 (50) 114.)

VOCATIONAL REHABILITATION LAW

§ 71-285. Unlawful to use information derived from records.—It shall be unlawful, except for purposes directly connected with the administration of the vocational rehabilitation program, and in accordance with regulations, for any person to solicit, disclose, receive, or make use of, or authorize, knowingly permit, participate in, or acquiesce in the use of, any list of, or names of, or any information concerning, persons applying for or receiving vocational rehabilitation, directly or indirectly derived from the records. (1957 (50) 114.)

§ 71-286. Agency may provide assistance to employees in moving personal effects.—The State Agency of Vocational Rehabilitation is hereby authorized to provide reasonable aid or assistance to its regular employees in moving their personal effects from one town or place to another town or place where their headquarters are so moved in the course of the business of the Department. (1967 (55) 608.)

PART II

Permanent Provisions

SECTION 1

It is hereby declared to be the intent of the General Assembly that the following sections shall constitute a part of the permanent laws of the State of South Carolina, and the Code Commissioner is hereby directed to include same in the next edition of the Code of Laws of South Carolina and all supplements to the Code.

SECTION 3

Operation of Alcoholic Center Transferred to State Agency of Vocational Rehabilitation

(1) The State Agency of Vocational Rehabilitation, acting with the counsel and advice of the South Carolina Commission on Alcoholism for the S. C. Alcoholic Center (the Center) shall have charge and exercise general supervision over the operation and maintenance of the Center, and shall determine policies governing admission to the Center subject to requirements and restrictions imposed by law; *provided, however*, that (a) admission to the Center shall be voluntary only, (b) admission to the Center shall be limited to residents of South Carolina, (c) patients who are able to pay for their medical care and hospitalization shall be required to do so, and (d) inmates of penal institutions and patients in hospitals, clinics, or institutions for the care and treatment of the mentally ill, mentally defective, epileptic, senile, and drug addicted, other than alcoholic,

VOCATIONAL REHABILITATION LAW

maintained or operated directly by, or under the control or supervision of, the South Carolina Mental Health Commission, shall not be admitted to the Center, except that the State Agency of Vocational Rehabilitation may collaborate with the South Carolina Probation, Pardon, and Parole Board and may admit probationers and parolees to the Center under such conditions of probation and parole as may be imposed by law and fixed by rules and regulations.

(2) The State Agency of Vocational Rehabilitation may accept and contract to receive grants of any kind from the Federal Government and gifts and grants of any kind from any other source, including grants or transfers of any property now or hereafter owned or controlled by the State, for the operation and maintenance of the Center.

(3) The Commissioner of the State Agency of Vocational Rehabilitation shall have the authority and discretion to appoint and remove all employees of the Center.

(4) The Commissioner of the State Agency of Vocational Rehabilitation shall fix the compensation of all officers and employees of the Center, subject to the approval of the State Budget and Control Board.

(5) The State Agency of Vocational Rehabilitation shall submit annually to the State Budget and Control Board its requests for appropriations for the operation, maintenance, expansion, or extension, of the Center for the following fiscal year.

Provided, that on the effective date of this Act all funds and property, real and personal, held by the South Carolina Commission on Alcoholism for the operation and maintenance of the Center shall be transferred to the State Agency of Vocational Rehabilitation. All funds now or hereafter appropriated for the operation and maintenance of the Center shall be expended under the direction of the Commissioner of the State Agency of Vocational Rehabilitation.

Provided, Further, that in addition to the rights, powers, duties, hereinbefore expressly granted, to the State Agency of Vocational Rehabilitation, the Agency is authorized and empowered to maintain and operate the Center with sufficient and competent administrative personnel to adequately staff and efficiently operate the Center headquarters at the location thereof, and to provide an inpatient hospital and clinical center to be centrally located so as to be conveniently accessible to patients from all parts of the State and suitably equipped and staffed with professional and trained personnel to carry on diagnostic, therapeutical, and experimental programs in applying medical, psychiatric, religious, and all other phases of treatment of alcoholism, and to extend rehabilitation services in the State.

Provided, Further, that the South Carolina Commission on Alcoholism shall study the problem of alcoholism in the State and consult with and

Attachment 2A: Legal Basis

VOCATIONAL REHABILITATION LAW

advise the State Agency of Vocational Rehabilitation regarding the treatment and rehabilitation of alcoholics in the State and the operation of the Center. In addition, the South Carolina Commission on Alcoholism shall retain the powers and duties previously vested in it, except to the extent that those powers and duties are conferred upon the State Agency of Vocational Rehabilitation by this Act.

Mr. Joe S. Dusenbury
Commissioner
South Carolina Vocational
Rehabilitation Department
301 Landmark Center
3600 Forest Drive
Post Office Box 4945
Columbia, South Carolina 29204

Re: Legal Authority of South Carolina
Vocational Rehabilitation Department.

Dear Mr. Dusenbury:

This is to certify that the South Carolina Vocational Rehabilitation Department was created and established by Act No. 108 of the 1957 Acts [1957 (50) 114], commonly referred to as "The Vocational Rehabilitation Act of South Carolina." Act No. 108 is codified in Chapter 31, Title 43, Section 43-31-10, et seq., Code of Laws of South Carolina (1976), as amended. These provisions are the legal authority for the South Carolina Vocational Rehabilitation Department being denominated the State agency to receive and administer Federal funds for the purpose of vocational rehabilitation services in South Carolina, with the exception of the program of vocational rehabilitation of the blind which is administered by the South Carolina Commission for the Blind [Chapter 25, Title 43, Section 43-25-10, et seq., Code of Laws of South Carolina (1976), as amended.].

Very truly yours,

A handwritten signature in dark ink, appearing to read "Raymond G. Halford".
Raymond G. Halford
Deputy Attorney General

RGH/bjm

Attachment 3.3(a)A ORGANIZATION AND FUNCTIONS OF THE STATE AGENCY

Organization of the State Agency:

(a) The South Carolina Vocational Rehabilitation Department is primarily responsible for the vocational rehabilitation program of the South Carolina Agency of Vocational Rehabilitation.

The State Agency of Vocational Rehabilitation was established by legislative act and its Board is recommended and appointed by the Governor with the consent of the Senate. The legislature places the Agency's relationship on the level with other major programs such as Public Education, Public Health, and Public Welfare.

The Agency consists of seven Board members duly organized to carry out the function of the law. The Board selects the Commissioner of the Vocational Rehabilitation Department, who also becomes the Executive Officer of the State Agency.

Functions and responsibilities of key staff members are included to more accurately reflect the functions of the agency.

(1) The Commissioner is responsible to the South Carolina State Agency of Vocational Rehabilitation for carrying out and enforcing the rules and regulations of the Agency with reference to the total vocational rehabilitation program. In carrying out these duties, he directs and coordinates the program and assumes the responsibility for the provision of adequate services and for uniformity in the application of all policies, rules and regulations.

(2) The Assistant Commissioner for Field and Case Services is primarily concerned with client program areas of the Department. He assists the Commissioner in planning policy and procedures for Board approval. He assists the Commissioner in the program affairs of the Vocational Rehabilitation Agency. He assists the Commissioner in planning, developing, coordinating and supervising the service delivery programs of the Department. He also assists in supervising the program provisions of the approved State Plan under the general supervision of the Commissioner.

(3) The Assistant Commissioner for Administration and Special Services is primarily concerned with the financial affairs of the Department. He assists the Commissioner in planning and developing policies and procedures for Board approval. Assists the Commissioner in the administrative affairs of the Vocational Rehabilitation Agency. Assists in the establishment and implementation of personnel, accounting and other business policies.

(4) The Supervisor of the Division of Workshops and Facilities is responsible to the Assistant Commissioner for Field and Case Services for the planning, developing, evaluating, and supervising of the workshop facilities and evaluation facilities throughout the State. This position involves responsibility for supervisory services in the area of workshops and facilities, in promoting new workshops and facilities, in evaluating established facilities, and in recommending types of services to be carried on in the workshops and facilities in the various communities throughout the State. He coordinates division services with other divisions of the Department.

(5) The Supervisor of Rehabilitation Services is responsible to the Assistant Commissioner for Field and Case Services for stimulating and promoting sound practice in providing rehabilitation services and in the delivery of case services, case planning and procedures, counseling and guidance, placement, follow-up, etc. He coordinates his work with other divisions of the Department.

(6) The Supervisor of the Division of the Vocational Rehabilitation-Public School and Youth Programs is responsible to the Assistant Commissioner for Field and Case Services for effecting an agreement with schools to provide rehabilitation services to the eligible handicapped youth. He promotes, organizes, and establishes facilities within the school which provide rehabilitation services over and above that being carried on by the school. The team approach will be used in bringing about comprehensive evaluations, personal adjustment training, prevocational and vocational training. A major portion of this may be effected within the schools, while other phases may be carried out within the community. He cooperates with the other divisions of the Vocational Rehabilitation Department in promoting total rehabilitation to these handicapped individuals.

(7) The Director of the Disability Determination Division is responsible to the Commissioner for the supervision of the operation of the Disability Determination Office. This office prepares disability determinations on applicants who have applied to their local Social Security Office for disability insurance benefits under the Social Security Administration Act. The Director is responsible also for referring potential cases to vocational rehabilitation in accordance with existing policies; for maintaining relationship with the medical profession of South Carolina to assure that satisfactory consultative examinations are obtained; and for maintaining a working relationship with Social Security District Offices and other divisions of the Rehabilitation Department.

(8) The Comptroller is responsible to the Assistant Commissioner, Administration and Special Services in assisting in planning, organizing, and directing the fiscal and accounting functions. He maintains accounts and related data and supervises activities of a varied staff of clerical and accounting personnel. He certifies vouchers for payment of proper claims.

(9) The Director of Administration assists the Assistant Commissioner for Administration and Special Services by performing internal audits of accounting records to insure validity, authenticity and legality of expenditures. He coordinates property management, inventory control and supply services.

(10) The Supervisor of the Research and Planning Division reports to the Assistant Commissioner for Field and Case Services and coordinates evaluation of special projects and service delivery programs and promotes research and the gathering and compiling of statistics. This position is on a statewide operational level and may be engaged in a total research effort or on various local levels in studying the processes and the work of the Rehabilitation Department in relationship to the needs of the State. He develops reports of research results and statistical information to be used for rehabilitation planning and promotion. He will coordinate his work with other divisions of the Department.

(11) The Departmental Training Coordinator plans and develops with other personnel an in-service staff development program. He develops techniques and methods for evaluating training needs of the staff and develops training plans in coordination with universities and colleges and special group training for strengthening the staff members of the rehabilitation program.

(12) The Program Specialist for the Deaf and Hearing Impaired supervises the Deaf and Hearing Impaired Program. He reports to the Assistant Commissioner for Field and Case Services. He supervises activities of specialty counselors for the deaf as well as coordinates programs within workshops and facilities programs.

(13) The Project Administrator, Alcoholism provides technical assistance to both Palmetto Center and Holmesview, treatment centers for alcoholics sponsored by Vocational Rehabilitation. He reports to the Assistant Commissioner for Field and Case Services. He provides supportive assistance to field counselors serving alcohol cases to members of an interagency governmental committee, designated by the Alcohol and Drug Commission to review grant applications and the awarding of formula funds.

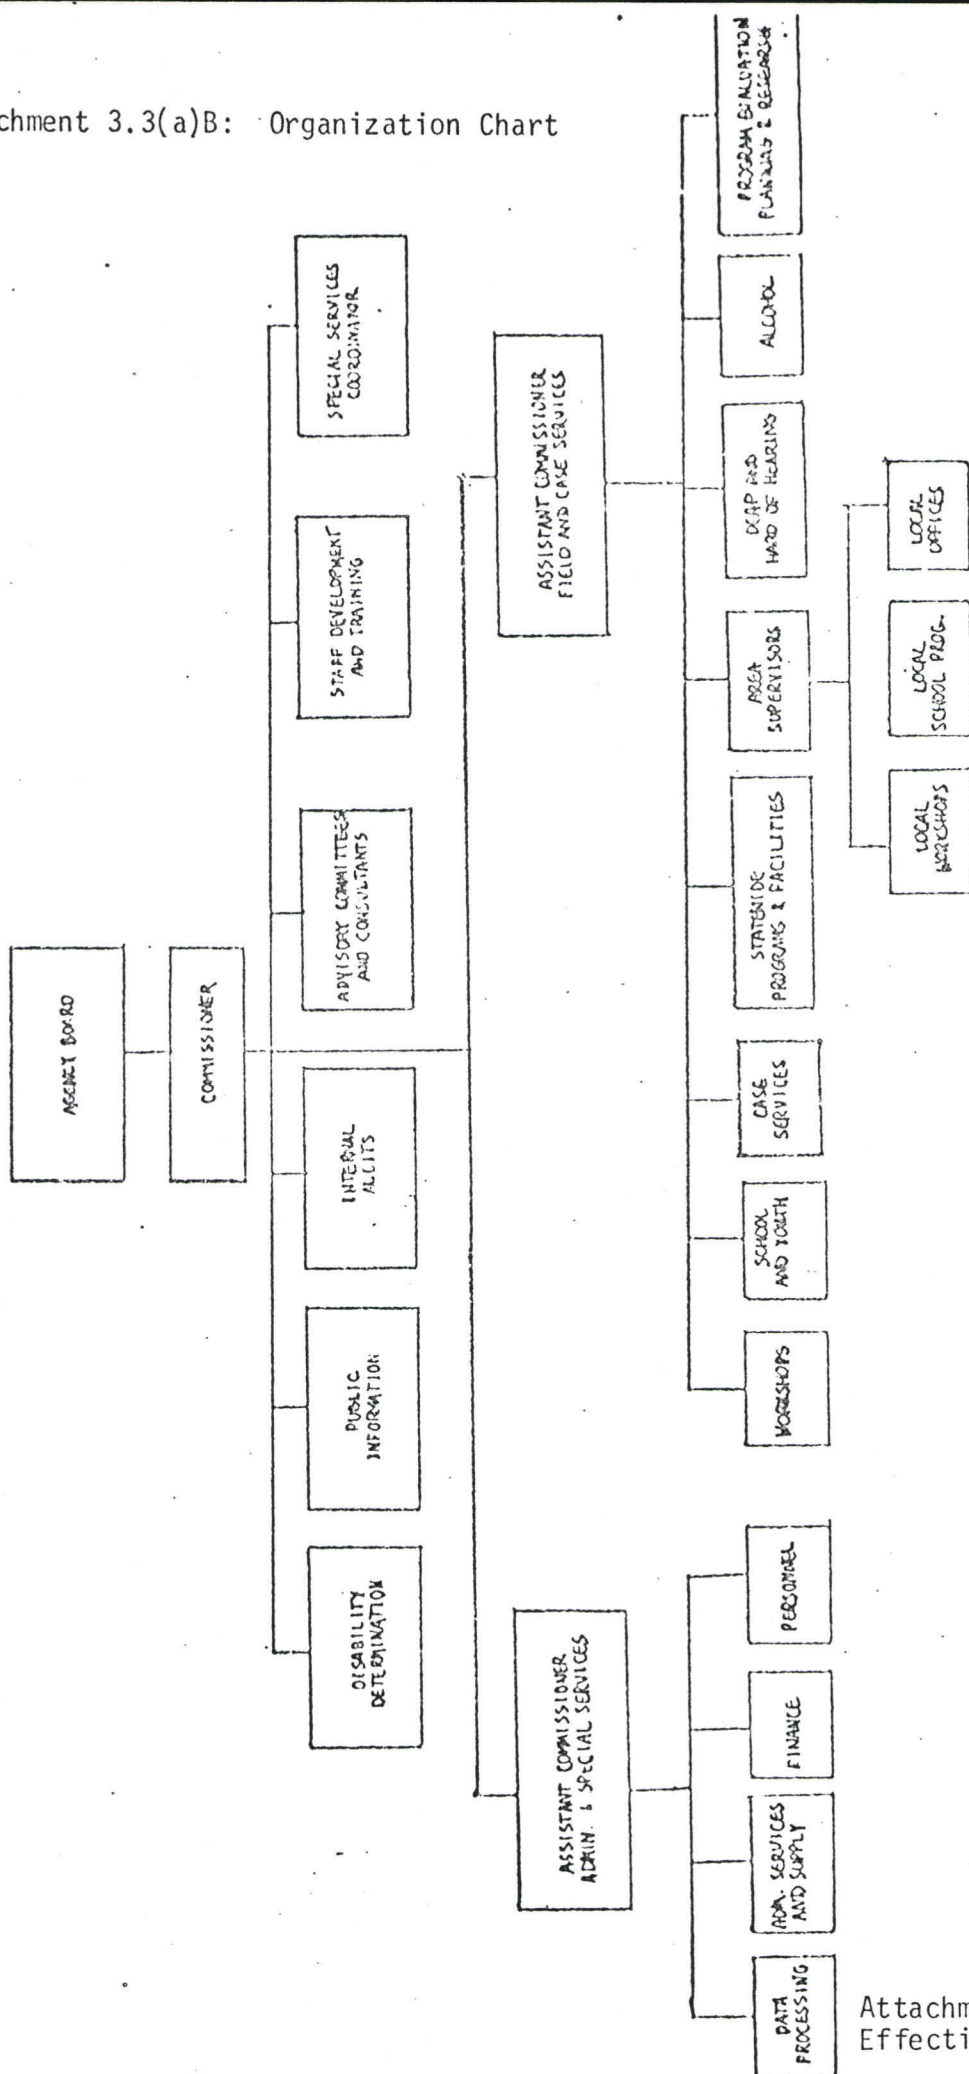

The fore mentioned positions and all other classified positions in the Vocational Rehabilitation Program are a permanent part of the South Carolina Personnel Classification System.

The State Medical Consultant is responsible for giving technical advice and consultation to the State Commissioner and staff members designated by the Commissioner with respect to the medical aspects of the vocational rehabilitation program. His duties and responsibilities will be to furnish consultation to the State Staff on individual cases and specific medical problems; advise with regard to the execution of the policies for physical restoration; assist the Department in its contracts with the medical and associated professions; assist in training the rehabilitation casework staff with regard to physical rehabilitation methods; assist in the maintenance of standards established by the Department for the selection of physicians, hospitals, and other types of facilities; and to assist in the maintenance of standards established for rates of pay to physicians, hospitals, and other medical personnel and facilities.

The Area Medical Consultant is responsible for giving technical advice and consultation to the area supervisor and counselors regarding medical aspects of the rehabilitation program within the area; for interpreting to the medical profession the policies, procedures and standards established at the State level; and for assisting in the training of rehabilitation personnel in the technical phases of physical rehabilitation. His primary function is to give advisory services to the area staff on individual cases referred to him. The Area Medical Consultant attends staff meetings occasionally in order to participate in the planning and appraisal of the medical aspects of the rehabilitation program.

SOUTH CAROLINA
VOCATIONAL REHABILITATION DEPARTMENT

Attachment 3.3(a)B: Organization Chart

ATTACHMENT 4.1B. TYPE OF PERSONNEL SYSTEM

Introduction: While not on an approved "merit system" the South Carolina Vocational Rehabilitation Department is a part of the South Carolina State Classification and Compensation System which includes all assurances required by 45 CFR 401.15(a). The system includes the following provisions:

(1) Recruitment: Active recruiting, based on established manpower needs, is conducted. Recruiting is directed to all appropriate applicant sources through various media in order to attract an adequate number of candidates for consideration. All such publicity indicates that the Department is an equal opportunity employer.

(2) Classification & Compensation: The Department adheres to the established South Carolina State Classification and Compensation Plan. This plan is established and maintained on a current basis and is available for public inspection.

(3) Selection: Applicants are selected through a multi-part assessment of attributes necessary for successful job performance. The assessment is based on performance tests, validated written tests, interviews, training and experience, and background and reference inquiries.

(4) Appointment: Applicants who meet the minimum qualifications of the job class as established by the State Classification System may be appointed should an appropriate vacancy exist. Appointments are made by the Commissioner and each appointee is employed within the salary range established by the state personnel system for the particular job class. Permanent appointment is based upon satisfactory performance during a one year probationary period.

(5) Career Advancement:

(a) Performance Appraisal: The Department utilizes a formal performance appraisal system, whereby an employee is evaluated systematically. This is done in order to assess training needs, and to provide a basis for decisions on placements, transfers, salary advancements, promotions, terminations and other personnel actions.

(b) Promotion: Positions are filled by promotion from within when it is in the best interest of the Department. Consideration is given to permanent employees and is based upon the meeting of minimum qualifications for the vacant job, demonstrated capacity, and the quality and length of service.

(6) Equal Employment Opportunity: In accordance with State and Federal laws and sound personnel practices this Department provides for equal practices in employment, terminations, up-grading, training, demotions and treatment of individuals. Employees and applicants are considered for opportunities on the basis of job related

individual differences and not on the basis of factors such as sex, race, age, physical or mental disability, creed, color, national origin, or political affiliation. This Department has developed and is implementing an approved affirmative action plan for equal employment. The plan provides for specific action steps and timetables to assure equal opportunity. Discrimination based on age or sex or physical disability will be prohibited except where specific age, sex or physical requirements constitute a bonafide occupational qualification. In cases of alleged discrimination the Department's grievance and appeal procedure may be utilized.

(7) Consistency with State Licensure Laws and Regulation: The Department's personnel policies and procedures are consistent with State licensure and other pertinent laws and regulations as they are applicable to the employees of the Department.

(8) Maintenance of Written Personnel Policies and Records: Written personnel policies and procedures are maintained and distributed to employees through the supervisory staff. Records of personnel activities are maintained and periodic reports are issued in order to evaluate personnel operations in relation to the Department's standards.

(9) Staffing: The Department insures that a sufficient number of staff are available to carry out the functions as outlined in the Rehabilitation Act and the staff has the appropriate qualifications to perform the established job duties. Such staff includes specialists in program planning and evaluation, staff development and training, medical consultation, rehabilitation facility development and utilization, expansion and improved services to the severely handicapped, and affirmative action for equal employment opportunity for the handicapped.

(10) Staff Development: The agency provides a program of staff development for all classes of positions within the agency. Staff development programs are based on (a) a systematic approach to the determination of training needs, and a system for evaluating the effectiveness of the training activities; (b) an orientation program for new staff; and (c) a plan for continuing training opportunities and career development for all classes of positions held under expert leadership at suitable intervals. The staff development program does not include leaves of absence for institutional or other organized training for full-time study. The State agency has established, in writing, the policies governing the granting of minimum release time, payment of tuition, and other regulations as related to in-service training.

(11) Political Activity: Employees engaged in the administration of the Vocational Rehabilitation program shall not participate in any political activity prohibited by the Hatch Act, but employees shall always have the right to express their views as a citizen and to cast their votes.

ATTACHMENT 8.2(a)A: ORDER OF SELECTION

Introduction:

In accordance with Section 1316.31 of the regulations, the South Carolina Vocational Rehabilitation Department has established an order of selection as the agency is not able to affirm that it definitely will be able to provide the full range of services needed by all applicants during the year who are determined eligible.

During the past four years, while the agency's revenue has been increasing at about 5% a year, the cost of each type of service expenditure has doubled or tripled that percentage, particularly the cost of medically-related services. At the local level, this means that case service expenditures have been reduced from about \$75,000 per caseload to \$60,000, yet the cost of each unit of case service purchased by counselors has increased from 40-50%.

As a result, the average number of clients served and rehabilitated per counselor has been substantially reduced. Counselors are unable to take on as many new clients as they simply do not have the funds to serve them.

The total number of individuals being served, new plans written, and number of rehabilitations have been dwindling. The final number of closures for the current year will be less than projected and fewer than usual will remain in preparation for closure status at the end of the year. Further goal reductions are now an inevitable result of funding limitations, reductions in personnel and cost increases.

During FY 1980, the federal portion of the agency's budget is expected to be approximately the same as last year's and the state portion will be only slightly higher. Increases that may take place during the year will be more than offset by inflation.

As a result of these financial realities and program evaluation studies, a number of policy and procedural changes have been and/or will be initiated during FY 1980 to adjust the service program to its current level of funding yet maintain as high a level of production as possible and improve the quality of services to all handicapped individuals, particularly the severely handicapped.

To effect a more productive distribution of caseloads and service resources, it will be necessary to eliminate some caseloads, redistribute the cases and increase the caseload of some counselors, redistribute case service funds, and modify some geographical areas served to assure that each counselor has sufficient referrals and financial resources to serve them. The agency's goal is to assure that each caseload carrying counselor has the funds necessary to provide the basic services required by a full caseload of clients throughout the full year, or at least without any substantial delay in service. A further analysis of production and expenditures will result in specific recommendations. Additional reallocations of personnel among the agency's network of facilities, specialized programs, and local offices will be made upon completion of present studies.

During FY 1980, it is expected that the number of individuals both served and rehabilitated will decrease from prior years but the proportion severely disabled will begin to increase. Of all clients served and rehabilitated, the proportion in four target disability categories is expected to increase: (a) amputations and orthopedics, (b) epilepsy, (c) heart disease, and (d) paraplegia, quadraplegia, and other spinal cord conditions.

This will be accomplished partially through changes in outreach efforts, project development, and refinement of cooperative programs designed to stimulate referrals and services for persons with muscular dystrophy, multiple sclerosis, heart disease, epilepsy, cancer, and other severe handicapping conditions. Other measures have been described elsewhere in this plan.

Guidelines for implementing this Order of Selection will be entered into the Case Services Manual and incorporated into inservice training programs. A monitoring system has been devised whereby regular reports are generated to indicate the expenditure of funds in each area of the state and each caseload, the percent of clients who are severely disabled, and the actual number of individuals in various priority categories who have been served and rehabilitated. Training for counseling, supervisory and secretarial personnel will be initiated as needed to help assure achievement of priority goals.

Implementing the Order of Selection:

The system of priorities described herein has been established to assure that the most severely disabled individuals will be served first if during the year it is determined that case service resources are not sufficient to serve all applicants.

Despite current funding shortages, the Department expects to continue to take applications from all individuals who apply for service during the coming year and to provide substantial services with reasonable promptness to all eligible clients in plan status. It will not be necessary to exclude any disability group from service at the beginning of the fiscal year due to administrative measures being taken. Procedures have been established to assure that available funds are distributed evenly throughout the year rather than allowing them to be exhausted during the first three quarters. As a result of these measures, no lengthy waiting lists or long-term exclusions from service are expected.

Should any service curtailment during the year become necessary due to an unexpected increase in applicants or expenditures or reduction in available funds, a contingency plan involving the service priorities has been established. The system would result in a temporary suspension of case services to specified categories of individuals should such a reduction be necessary.

At the beginning of the fiscal year, the agency's expected resources are tentatively allocated in keeping with expected expenditures and client service requirements. Monthly management reports and projections enable the administration to monitor the actual flow of resources and the volume of new applicants to determine in advance any necessity to curtail services during the year.

Regular reports will be obtained regarding the number of applicants being received monthly and projected expenditures for persons in each of the least severely disabled categories for whom services might have to be suspended if a severe shortage of funds develops during the year.

Although the general order of selection has been established, the exact categories affected and the duration of service curtailment would have to be determined by the administration at the time specific cost and service projections were made known. After examining all alternatives, the administration will implement the plan of service reduction, including appropriate staff training and public awareness activities.

The principle will be followed that no qualified handicapped individual will be excluded from participation in the program solely by reason of his handicap, in keeping with Section 504, P.L. 93-112 (CFR Section 1362.25).

If funds are not available to serve all eligible individuals, however, services for specific types of individuals will be temporarily suspended and applicants will be placed on a waiting list to be served when funds become available.

Diagnostic and Evaluation Services to Continue

The agency will continue to receive applications from all persons who seek service. A preliminary diagnostic study will be provided for all applicants to determine their eligibility, their level of severity, and the probably extent of program services required. Referral services will also be provided as appropriate.

Order of Priority:

The order of selection described herein will be followed, with the categories to be served listed in descending order of priority. Persons included in the first categories will be most assured of continuation of services in times of austerity. Services for persons in the disability categories listed last will be provided when funds become available.

1. Clients Already in Active Status.

Justification: Services already initiated shall not be disrupted for individuals accepted for services and who have in process an Individualized Written Rehabilitation Program. Prior commitments of the Agency should be honored so long as funds are available, thus constituting the top priority for service. The general principle has been established that individual services will not be suspended or delayed for some active clients while other clients receive them, no matter what their degree of disability may be, as that would be perceived as discriminatory.

2. Severely Disabled Applicants.

Justification: Applicants determined as severely disabled constitute the highest priority for services after those persons already being served. This is in keeping with CFR 1361.31(b). It should be noted that the definition of severely disabled applicants will be that as issued by RSA and already utilized by Vocational Rehabilitation personnel throughout the state.

3. Public Safety Officials and Firemen Disabled in the Line of Duty.

Justification: This is a requirement of Federal regulations as reported in CFR 1361.31(c).

4. U. S. Government and Civil Service Employees Disabled in the Line of Duty.

Justification: This is required by Federal regulations as reported in CFR 1361.32.

5. Disabled Applicants in Cooperative Programs.

Justification: Applicants being served in cooperative programs are often served at no or reduced cost to the rehabilitation agency because of joint funding or service arrangements with the cooperating agencies. Only those low-cost non-severely disabled clients who are referred from cooperative programs or those for whom we receive funding from outside sources will be considered for this priority level of service.

6. Non-Severely Disabled Applicants, Other Than Those in Cooperative Programs.

Justification: In keeping with various mandates to serve severely disabled applicants and other priority groups as described above, the remaining non-severely disabled applicants shall constitute a lower order of priority for services. Even within this broad category of "non-severe" it is recognized that certain individuals will require less costly services than others and can thus be served with few case service expenditures. All others remaining in this non-severe category shall be served as funds are available.

When the applicants with one of the following disabilities do not also have another disability or do not meet the functional limitation guidelines for a severe disability, are determined to be non-severe, and are not in a cooperative program, they will be served only as funds are available. The following disability groups are listed in descending order of priority, i.e. applicants with disorders listed in group Number 10 shall constitute the lowest order of priority within the Agency.

GROUP 1 - Mental Retardation

530 Mental Retardation, mild

GROUP 2 - Other Conditions for Which Etiology is not Known or not Appropriate

609 Benign and unspecified neoplasms

GROUP 3 - Disabling Disease and Condition, n.e.c.

690 Disease and condition of skin and cellular tissue

699 Other disabling diseases and conditions, n.e.c.

GROUP 4 - Other Visual Impairments due to:

140 Cataract

142 General infectious, degenerative, and other unspecified diseases, including ocular and local infections

149 Ill-defined and unspecified causes

GROUP 5 - Cardiac and Circulatory Conditions

645 Other hypertensive disease

646 Varicose veins and hemorrhoids

649 Other conditions of circulatory system

GROUP 6 - Allergic, Endocrine System, Metabolic and Nutritional Diseases

610 Hay fever and asthma

611 Other allergies

614 Diabetes mellitus

615 Other endocrine disorders

GROUP 7 - Other Ill-defined Impairments (including trunk, back and spine) due to:

381 Congenital malformation and ill-defined birth injury

383 Other diseases, infectious and non-infectious (excluding 646), other neurological and mental diseases

390 Arthritis and rheumatism

399 All other accidents, injuries and poisonings

GROUP 8 - Other Mental Disorders

522 Other character, personality and behavior disorders

523 Drug abuse

GROUP 9 - Conditions of Genito-urinary System

670 Other conditions of genito-urinary system

GROUP 10 - Disorders of Digestive System

- 660 Condition of teeth and supporting structure
- 661 Ulcer of stomach and duodenum
- 663 Hernia
- 669 Colostomies (other than malignant neoplasms) other conditions
of digestive system

Attachment 8.2(b)A: OUTCOMES AND SERVICE GOALS

The impact of our placing priority on the severely disabled and intensifying services to groups of clients listed in Attachment 8.2(a)A of the State Plan will be reflected in the numbers served and rehabilitated during FY 1980. In addition to regular monitoring of our progress toward disability group goals listed below, data will be obtained regarding the number of total and severely disabled clients served and rehabilitated in each of the priority groups enumerated in 8.2(a)A for FY 1980.

DISABILITY	<u>DISABILITY GROUP GOALS</u>			
	TO BE SERVED		TO BE REHABILITATED	
	1979	1980	1979	1980
1. Blind	-0-	-0-	-0-	-0-
2. Visually Impaired	2,176	1,784	644	616
3. Deaf	576	472	80	77
4. Hard of Hearing	1,408	1,155	391	374
5. Amputations and Orthopedics	8,640	7,349	1,506	1,496
6. Paraplegia, Quadraplegia, Other Spinal Cord Conditions	384	472	34	43
7. Mentally Ill	6,656	5,460	1,000	957
8. Other Personality Disorders	8,320	6,824	1,679	1,605
9. Alcoholism	2,496	2,047	517	495
10. Drug Addiction	256	210	34	33
11. Mental Retardation	9,920	8,137	1,621	1,550
12. Epilepsy	832	944	115	132
13. Heart Disease	2,176	2,100	356	406
14. Speech Impairments	256	210	46	43
15. Digestive System Disorders	3,648	2,991	1,081	1,034
16. All Other Disabilities	16,256	12,345	2,396	2,139
17. Total	64,000	52,500	11,500	11,000

Service Goal Adjustments for FY 1980

During the coming year, the total number of individuals to be served and rehabilitated by the Vocational Rehabilitation Department is expected to be reduced. The cost of both case services and agency provided services is increasing more rapidly than the Department's state and federal funds received. In addition, the emphasis on serving more severely disabled and program changes required to improve the quality of case management has made it impossible to maintain the total number of clients being served.

It is expected, however, that the proportion of clients served and rehabilitated who are severely disabled may begin to increase by the end of the year although a greater increase is expected by FY 1981.

The greatest increases in the proportion of clients served and rehabilitated will be in four disability categories: (a) heart disease, (b) amputations and orthopedics, (c) epilepsy, and (d) paraplegia, quadraplegia, and other spinal cord conditions.

As the referral network to the special epilepsy program at the Medical University in Charleston is functioning well, an increase in epileptics served and rehabilitated is expected. This program will continue to provide a wide range of rehabilitation services to epileptics and individuals with seizure disorders of unknown etiology.

An increase is expected in the number of individuals with heart disease rehabilitated in view of the specialized program and facility South Carolina has for that disability group.

In cooperative programs with Richland Memorial Hospital and Providence Hospital in Columbia, a renewed emphasis will be placed on Vocational Rehabilitation's role in providing post-medical treatment programs for Cancer and Cardiac patients.

The groundwork for a more involved cooperative agreement with the State Cancer Society, one County Cancer Society, as well as several doctors whose practice is primarily in the oncology area, has been established in an effort to increase services to cancer victims. Also, an I & E project grant is pending to provide funds to develop a selection process for serving cancer cases.

A reciprocal agreement with the three Multiple Sclerosis Societies has been signed and nearly all cases referred should be considered severely handicapped.

The Department's long-standing cooperative program with the Industrial Commission is being refined so as to receive an increased number of Workman's Compensation referrals. Referrals should be heavily weighted toward orthopedic problems but paraplegics, spinal cord injured, and other severely handicapped referrals are expected.

There has been a concerted effort to work more closely with rehabilitation hospitals such as the Charlotte Rehabilitation Hospital to increase services for spinal cord injury cases and to facilitate the movement of such clients from that institution to the agency's Comprehensive Center for vocational evaluation, adjustment, physical therapy, training and other rehabilitation services.

The Department will place increased emphasis on services to adults with cerebral palsy in keeping with the state's emphasis on deinstitutionalization of the developmentally disabled.

The greatest reductions in the number of individuals served will be those with digestive system disorders, mild mental retardation, mental illness, and other personality disorders. Most of these disability categories do not include clients generally considered severely disabled nor is it expected that the majority will have multiple handicapping conditions. This will come in part due to the Department's continuing to deemphasize services for correctional institution residents, family court, and other former LEAA funded programs.

ATTACHMENT 8.3A:

METHODS OF EXPANDING AND IMPROVING SERVICES TO THE SEVERELY HANDICAPPED

For years, South Carolina has been a national leader in the number of severely handicapped persons rehabilitated per 10,000 population. Program activities contributing to this position will be continued in the coming year. In addition, other activities will be initiated or increased in FY 1980 as a result of recent program evaluation and planning efforts. Activities designed to expand and improve services to the severely handicapped may be classified into three major categories, those involving policy, programming, and management.

A. Policy Areas

1. Program Planning, Evaluation and Statewide Studies

During the past year, a third series of indepth program evaluation reviews was conducted on a sample of cases from each caseload in the state, utilizing statelevel and area supervisory personnel. The findings and specific instructions for improving services have been shared in a series of training sessions with local supervisors, quality control specialists, and all professional personnel. A monitoring system has been developed to assess improvement in case documentation, selection of eligible applicants, and provision of substantial services.

The initial review done during fiscal year 1976-77 revealed a number of cases in active statuses that were borderline eligible and substantial services were not documented. To address this problem, counselors were provided individual and group training situations where feedback of audit information was provided. Close monitoring and supervision followed.

After completing the third audit review, it was found that the problem of barely eligible clients has been by-and-large eradicated but additional efforts will be made in three areas of the state to assure continued improvement.

In addition to the "in-house" reviews, the agency requested Regional RSA representatives to provide two case reviews during the past year. The findings were positive but concerns noted by the reviewers will be incorporated into the agency's counselor casework training program for the coming year.

The Department is now planning another series of program evaluation activities for FY 1980 to assure improvement of services to all clients, particularly severely handicapped individuals.

Local Quality Control Specialists have been brought together on a quarterly basis during which time emphasis has been placed on accepting more severely handicapped clients and providing substantial services for them.

A program specialist has been added to the Central Office staff to head up a continuing audit review process as well as to provide individual training to counselors, counselor assistants, and local quality control specialists in an effort to increase case management and assure substantial services for the severely handicapped.

A systematic process has been developed to conduct program reviews in the thirteen community based rehabilitation centers. Program reviews conducted to date have been effective in identifying the function and needs of each of the centers. The format is used as a guide to assess each program component - production, assessment, and adjustment, as well as administration, physical operations, client population, public relations, counselor-facility relationship and work activity center and food service programs where applicable. Reviews made during the year will be used as a means of assuring that an adequate and effective service delivery system is being provided in each of the thirteen centers.

Other annual reviews study the distribution of service resources, changes in the program, and reasons why clients drop out of the program. Client follow-up studies will evaluate the retention of benefits, long-term effectiveness of the program, and client satisfaction with services.

Other studies to be initiated during the year will explore the needs of different types of clients and the contribution of various types of personnel, facilities, programs, and patterns of service toward meeting these needs.

Five-Year Plan Established

For the past two years, each agency in South Carolina has been required to develop a five-year plan setting forth the agency's long range goals and proposed programs necessary to correct current deficiencies.

At the present time, approximately 4,000 or 31% of the state's 12,000 yearly rehabilitants are severely disabled. To reach the national goal of 50% by 1984, the Department has established a goal of rehabilitating an additional 4,000 severely disabled individuals yearly in addition to the present 4,000 severely disabled and 8,000 non-severely disabled. The total goal for 1984 will be to serve 85,000 and rehabilitate 16,000 individuals, 50% being severely disabled.

To reach that goal, the first need will be to develop a series of specialized service programs and projects designed to reach out to involve a larger number of severely disabled individuals in at least ten disability groups and to explore methods of improving patterns of service for such individuals.

A second set of needs will be met by strategies to expand and improve the quality of services normally rendered at various stages in the rehabilitation process.

Additional personnel will be needed in all team positions to serve the additional number of persons and reduce caseloads so that more time is available for each client.

A steady program of growth will also be required in statelevel supervision, monitoring and staff development to improve services, increase facility utilization, assure compliance with changing regulations, and assure that VR programs blend with those of other agencies.

Unfortunately, it will not be possible to implement the main features of the plan this year as the additional funds required to do so will not be available from federal or state sources. The plan will be used as a goal for future growth when funds become available.

Order of Selection Established

A system of priorities has been established within the Department to assure that the most severely disabled will receive priority services during times of reduced resources. During FY 1980, it is expected that the number of individuals both served and rehabilitated will decrease but the number served with lesser degrees of severity will tend to decrease more rapidly than those with more severe disabilities. Guidelines for implementing this Order of Selection will be written, entered into the Case Services Manual, and incorporated into inservice training programs. Details are provided in the State Plan.

A monitoring system has been devised whereby regular reports are generated to indicate the expenditure of funds in each area of the state and each caseload, the percent of clients who are severely disabled, and the actual number of individuals in various priority categories who have been served and rehabilitated. Training for counseling, supervisory, and secretarial personnel will be initiated as needed to help assure achievement of priority goals.

2. Policy Consultation with Consumers and Advisory Groups

In keeping with Federal Rules and Regulations as published in the Federal Register, November 25, 1975, Section 1361.19, the South Carolina Vocational Rehabilitation Department has developed a variety of means by which the views of individuals and groups are taken into account in formulating and implementing agency policy and State Plan for Vocational Rehabilitation Services.

Continued communication with consumer associations and service providers has enabled the Department to obtain a steady flow of suggestions regarding program or policy changes needed to better meet the needs of the handicapped. A significant number of these individuals are handicapped or represent groups of handicapped persons. In addition, the agency makes yearly followup contacts with several hundred former clients.

The Department has made substantial efforts to take into account the views of individuals and groups in formulating agency policies and procedures. It is committed to continuing and expanding opportunities for citizens to make their views known.

Individuals and groups providing input regarding services to the handicapped include (1) recipients of vocational rehabilitation services, their parents, guardians, or other representatives, (2) providers of vocational rehabilitation services, and (3) others active in the field of vocational rehabilitation. They include a Medical Advisory Committee, Commission on Alcoholism, Advisory Council on deafness, the S. C. Rehabilitation Association Board, a network of local workshop facility Advisory Boards, and many other interagency councils and committees. The agency's relationship with some of these are described below.

Medical Advisory Committee

The Vocational Rehabilitation Department maintains a Medical Advisory Committee. This committee is appointed by the Department, and is concurrently recognized by the S. C. State Medical Association as its official Committee on Vocational Rehabilitation Services. Thus, members of this advisory committee serve in a joint role, for the Department and for the Medical Association. The chairman of the Medical Advisory Committee is also the Chief Medical Consultant to the Department. The Chief Medical Consultant is also active in the Medical Association, and has long served as an officer of the Association in various capacities.

The Medical Advisory Committee includes numerous providers of vocational rehabilitation services from communities throughout South Carolina, and all members are active in the field of vocational rehabilitation. The duties of this advisory committee include advising the Department as to policies and procedures which should be implemented in keeping with medical aspects of vocational rehabilitation. They advise the Department of new technology pertaining to treatment, diagnosis, and evaluation, and thereby have impact on policies and procedures adopted by the Department.

Workshop Facility Advisory Boards

Many of the Vocational Rehabilitation Workshop facilities operated by the Department have a volunteer Advisory Board composed of interested individuals from within the local community the workshop serves. These local advisory boards are comprised of professional and lay leaders, including some who are handicapped themselves or are parents of handicapped individuals. Others are providers of vocational rehabilitation services in the community. The primary purpose of each Workshop Facility Advisory Board is to provide input from the community regarding the rehabilitation needs of the handicapped population and opportunities for them.

To maximize direct communications between local workshop advisory boards and the Department, each Area Supervisor is a member of the advisory board in his area. In addition, State Office staff attend local board meetings as needed to further provide liaison with the community. Through these Advisory Boards, an effective means of obtaining local views regarding the program is maintained in each area of the state.

Evaluation Standards Reviews

As part of the Department's compliance with Program Evaluation Standards as published in the Federal Register, December 19, 1975, Section 1370.5, the Department regularly contacts and seeks the views of recipients of vocational rehabilitation service. Hundreds of former clients of the Department are contacted each year to determine their satisfaction with vocational rehabilitation services and their views regarding programs and procedures of the Department. These studies conform to federal criteria established for evaluation standard studies and reviews.

Client Inquiries and Complaints

With the large number of clients and applicants who come in contact with the Department each year there are always some who make inquiries or complaints about decisions, policies or procedures of the Department. In an effort to make certain that the views of such individuals are known to the top administrative officers of the Department, all such inquiries to the State Office are handled directly by the Office of the Commissioner or the Assistant Commissioner for Field and Case Services. This responsibility is not delegated to lower levels of administration and the results of any investigations are made known directly to the Commissioner so that he may respond rapidly.

Participation in Interagency Councils and Committees

The Department has long been an active participant in various councils and committees within South Carolina. As a result, representatives of the Department are constantly in contact with providers of rehabilitation-related services. For example, the Department has always taken a leadership role as a member of the Developmental Disabilities Council, a group composed of numerous service providers, handicapped individuals, some of whom are recipients of Department services, and other interested citizens. In addition, the Department has official membership in many interagency and community organizations, all of which allow additional opportunities for individuals and groups to make known their views regarding vocational rehabilitation services, policies and procedures.

Advisory Committee on Deafness

As part of the recent emphasis on expanding vocational rehabilitation services to the deaf and hearing impaired, the Department has established an Advisory Committee on Deafness. This committee serves in an advisory capacity to make recommendations relative to agency policy and procedures as pertains to unmet service needs of deaf individuals.

This advisory committee includes deaf recipients of vocational rehabilitation services, parents of recipients, providers, and others active in the field of vocational rehabilitation. Representatives of major State agencies are participants on this committee, as are representatives of various client organizations, including the South Carolina Association of the Deaf.

S. C. Commission on Alcoholism

In keeping with the provisions of the S. C. Vocational Rehabilitation Law, Part II, Section 3, the S. C. Commission on Alcoholism "shall study the problem of alcoholism in the State and consult with and advise the State Agency of Vocational Rehabilitation regarding the treatment and rehabilitation of alcoholics" Therefore, individuals who serve as members of the Commission on Alcoholism also have advisory responsibility to the Vocational Rehabilitation Department in the area of alcohol rehabilitation.

S. C. Chapter of the National Rehabilitation Association

The Department enjoys a close and fruitful working relationship with the South Carolina Chapter of NRA. As a result of this relationship, the State NRA Board has a constant opportunity to make known its views about departmental policies and procedures directly to the Department's top level administrators. At each SCRA Board meeting, the Commissioner, Assistant Commissioners and other key administrative staff are invited to meet with the Board in an opportunity to share views and ideas. The local National Rehabilitation Association Board consists of providers of vocational rehabilitation services and various other citizens interested in vocational rehabilitation, thus providing yet another means for the views of individuals to become known to the Department.

Committees on Employment of the Handicapped

A statelevel program specialist has been assigned major responsibility for serving as liaison with the Governor's Committee and local Mayor's Committees on Employment of the Handicapped. In that capacity, he has been obtaining feedback from consumers and other citizens regarding the VR Department's policies and programs.

3. Cooperative Arrangements and Agreements

One of the primary reasons why the South Carolina Vocational Rehabilitation Department has consistently maintained a leadership position nationally and enjoyed substantial support from the State Legislature in its long-established policy of maintaining a network of interagency relationships and cooperative agreements with organizations concerned with improving the quality of life for handicapped individuals. This network of relationships is described in the "Cooperative Agreements with Other Agencies" section of this plan.

4. Affirmative Action Plan

The South Carolina Vocational Rehabilitation Department has developed an Affirmative Action Plan for its employees and clients which has been designed to assure equal opportunity for all handicapped individuals. Continued employment, training, and promotion of disabled individuals, minorities, and women in various positions will help assure continued selection and service to severely disabled clients in an equitable manner. This plan is described elsewhere in this document and in the State Plan.

5. Legislative Action

Although this has not been a landmark legislative year for the handicapped, the Department has continued to maintain a close working relationship with the General Assembly and Governor's office in an effort to promote a variety of programs designed to improve life for handicapped individuals.

As a member of the Joint Legislative Committee to Study Problems of the Handicapped, the Commissioner has monitored programs and legislation proposed by other agencies in an effort to assure that an appropriate division of labor and funding is maintained while an effective interdependence of programs for the handicapped is maintained.

The Department has engaged in a number of activities supporting legislative action concerning removal of architectural barriers, parking for the handicapped, accessibility of services, recreational opportunities, etc. It has supported efforts to allow the Human Affairs Commission to play a more aggressive role in assuring equal rights for handicapped citizens.

Building upon legislative concern, the Department has worked with members of the General Assembly to appropriate and earmark \$250,000 for scholarships for handicapped students enrolled in institutions of higher learning. The Department has been asked to administer this scholarship program.

6. Public Information

A public information program has been initiated to acquaint potential consumers, referral sources, and professional people with the agency's program to serve the severely disabled. The agency's program for such individuals is being publicized through newspaper reports, the agency's newsletter, inclusion of severely disabled in public meetings in which VR participates, and a series of radio and television announcements. A special effort will be made to acquaint the public with success stories of severely disabled who have been rehabilitated.

During the past year, the agency's Public Information Specialist has been working with the Coordinator of the Governor's Committee on Employment of the Handicapped to generate an unprecedented array of activities and public information in strategic locations throughout the state. The activities of these local Mayor's Committees have involved a wide variety of civic, business, professional, and legislative leaders along with consumers and representatives of consumer organizations. Similar activities are planned for next year.

B. Programming Areas

1. Outreach, Intake, and Referral Practices

As indicated in the Cooperative Agreements section of this attachment, plans are underway to modify the agency's outreach and intake programs. Referral sources will be examined to determine the number of severely disabled being

referred from each service. Measures will be devised to stimulate a continued flow of severely disabled referrals from these sources.

SSI referrals have been less than anticipated and their active participation in the rehabilitation process continues to remain a problem to be resolved. Incentives for such referrals to actively participate in Vocational Rehabilitation programs are not strong due to rather generous allowances but other incentives will be explored.

2. Evaluation of Rehabilitation Potential Including Extended Evaluation

As indicated in the Rehabilitation Facilities section of this Plan, the Department is continuing toward its goal of operating a statewide network of state-owned rehabilitation facilities in which it can provide evaluation, adjustment and extended employment services needed for rehabilitation of severely handicapped clients.

In all of the facility improvement programs, the extended evaluation and employment section is being expanded to accommodate more severely handicapped individuals. In addition, a network of activity centers had been developed cooperatively with the Department of Mental Retardation. Centers were created in eight facilities during the past two years and plans are being formulated for additional activity centers if funds become available. These are designed to serve the severely retarded and other developmentally disabled clients. The Department has been operating an expansion grant program which established fourteen positions for personnel whose primary responsibility is to work with the severely disabled in the extended employment section of our facilities.

3. Placement and Post-Employment Services

In each of the case reviews, it was found that some counselors did not play as aggressive a role as they might in aiding clients to obtain employment. This has resulted in some clients failing to gain employment as rapidly as possible although others may have benefitted from their own experiences. As a result of these reviews, counselors have been trained and encouraged to play a more active role in this phase of the process, particularly with severely disabled individuals. This training and emphasis will be continued in FY 1980.

The Department feels strongly that rehabilitation facilities can plan an important role in preparing many clients for successful placement. Therefore, job-seeking skills will be emphasized in personal and social adjustment classes conducted in rehabilitation facilities. Additional instruction will be provided in specific areas such as job interviewing, how to complete employment applications, personal grooming and dress, etc.

4. Utilization of Facilities

South Carolina has established the largest network of state-owned facilities in the nation and has utilized them in a productive manner. This network is described in Rehabilitation Facilities, pages 15-18.

5. Special Projects

In keeping with a national objective, the Department has initiated a "Projects with Industry" program in a rather isolated agricultural area of the state to help prepare VR clients avail themselves of some of the few industrial opportunities in the area. Clients begin their evaluation in a limited space where they gain real work experience on sub-contracts but are then placed on work tryouts in actual industrial settings during the latter stages of the process.

A statewide program for the deaf and hearing impaired, now completing its sixth year, will again be emphasized during the coming year. The thirty-five member staff of this program has extensive training in various aspects of deafness and provide a unique set of services not available elsewhere.

The agency will also continue its intervention project for employed alcoholics which has just completed its third year of operation. The Drug Addiction Project, a vocational evaluation program located within the South Carolina Addiction Center, has completed another successful year and will continue to maintain its service.

A comprehensive rehabilitation service program located in the Medical University Hospital will continue to provide a wide range of rehabilitation services to epileptics and individuals with seizure disorders of unknown etiology. As a result of this program expansion, medical, psychological, social and vocational rehabilitation services are now available to a greater number of severely handicapped individuals.

6. Elimination of Barriers

One of the benefits of building new or expanded rehabilitation facilities will be that the buildings and grounds can be designed to eliminate architectural barriers.

Four years ago, South Carolina passed an architectural barriers law which set standards for construction of a wide range of public and private facilities. The Vocational Rehabilitation Department Commissioner is a member of the Board assigned to administer this law and plays a significant role in developing standards which influence the accessibility of programs for severely disabled individuals.

The Coordinator of the Governor's Committee on Employment of the Handicapped has participated on the program of numerous workshops designed to acquaint builders, architects, business men and others with the provisions of Section 503 and 504.

The Commissioner, Coordinator of the Governor's Committee, Area Supervisors, and Counselors have all played significant roles during the year in stimulating opportunities for employment of the handicapped throughout the state, working with industrial and civic leaders to reduce attitudinal as well as architectural barriers.

C. Management Areas

1. Special Administrative Measures

During the past year, a number of changes have been made in the system of monitoring case services and expenditures to better evaluate the agency's production and resources at any given moment. Additional refinements will be made in the coming year, based upon an analysis of the agency's tracking system.

Following special efforts by the Commissioner to communicate the priority nature of services to the severely disabled, state and area supervisors were assigned responsibility for encouraging an intensive evaluation and service program for those presently on the caseload, reassessing the allocation of case service funds, intensifying our supervisory consultation and state office case review program, modifying staff assignments as needed, and developing an appropriate staff training program. It is expected that additional administrative action will be taken as needed to help expand and improve the service program throughout the coming year.

Revised Case Service and Facilities Manuals

Based on extensive program evaluation and planning activities conducted during the past year, a number of policy and procedural changes have been incorporated into the case services and facilities manuals designed to improve the quality of service to all clients, particularly the severely disabled. Many of these changes have been made to assure that clients will be selected who have substantial handicaps to employment and that substantial services are provided to each client. A primary goal of several key changes has been to assure that the agency's limited resources will be allocated to those clients who need them the most.

The Case Service Manual chapter pertaining to referral procedures to statewide facilities has been completely revised to provide VR personnel with more complete information regarding the state's facilities, referral procedures, services available, and other information designed to stimulate the use of these facilities for a wide variety of handicapping conditions. The statewide facilities have been designed specifically for severely disabled individuals.

Personnel Resource Reallocation

As a result of funding limitation, the case reviews, changes in caseload size and both personnel and caseload management studies, a series of personnel

reallocations and reassignments have been made to produce a more equitable distribution of workloads and greater consistency among similar types of programs. One result of these changes has been to produce more frequent, more productive, and more timely contacts with clients, thus improving the quality of services for severely disabled individuals. Further reallocations will be made in FY 1980 as the effects of funding limitations are analyzed.

Additional personnel change has been to reduce the number of institutional counselors and shift these positions into strategic positions in communities where the quality and quantity of production needs to be increased.

2. Joint Services with other Agencies

Joint services with other agencies which have been developed for the mutual benefit of clients are described beginning on pages 12 and 15, Cooperative Agreements with Other Agencies and Rehabilitation Facilities.

3. Inservice Training

Most inservice training for the coming year has been developed to undergird the agency's program of improving and expanding services to the severely disabled. The basic components of the program for FY 1980 are outlined in Section I, Training.

4. Research and Research Utilization

Research and research utilization are continuing responsibilities of a viable agency. A number of staff development and program modification needs were determined from the yearly Program Evaluation Reviews previously mentioned. Statewide studies to monitor program services and expenditures in various parts of the state are made on a continuous basis. State and local trends are compared with national trends made available through various RSA documents and research reports.

These findings have been incorporated into the agency's inservice training program by the Training Director. The Research and Planning Supervisor, along with state supervisory personnel involved in the program reviews, have been actively involved in training conferences and thus helped to disseminate program evaluation findings.

Additional program evaluation studies have been planned for next year to help assure that significant services are mobilized for the severely handicapped and provided in a timely manner with individual needs being paramount and that services are distributed equitably throughout the state and to various types of handicapped individuals.

COOPERATIVE AGREEMENTS WITH OTHER AGENCIES

For the past two decades, the South Carolina Vocational Rehabilitation Department has led the nation in establishing cooperative programs designed to reinforce the efforts of other agencies and institutions and to enrich the service program for handicapped citizens. To date, more than 75 formal interagency agreements have been reached in an effort to provide an effective statewide service delivery system. These have produced specialized service programs in 27 school systems, major speech and hearing centers, juvenile courts, the Medical University, selected hospitals, 17 workshops and evaluation facilities, and in all of the state's institutions for retarded, mentally ill, respiratory diseases, corrections, youth services, alcoholism, and drug abuse. By blending resources in these interlocking interagency programs, South Carolina has developed an unparalleled network of statewide and local community services for all types of handicapped individuals including the most severely disabled.

Interagency cooperative agreements and programs are reevaluated and updated yearly to assure that the severely disabled are being served in a courteous, efficient and expeditious manner. Particular emphasis will be placed on strengthening personal and vocational adjustment programs during the coming year.

To fully comprehend South Carolina's system of interagency agreements involves an understanding of the relationship between five components of the overall program, i.e. (a) cooperative agreements, (b) rehabilitation facilities, (c) VR Public School programs, (d) comprehensive rehabilitation centers, and (e) Innovation and Expansion Grant programs.

The Department has cooperative programs with all state human service agencies, with a team of VR personnel working within all of the major state institutions and hospitals. These programs initially developed as specialized facilities serving particular types of clients, frequently receiving I & E, Facility Improvement, or R & D grant funds at the outset. Many are now operated as a cooperative program although designated as one of the agency's statewide facilities.

In addition to a cooperative agreement with the State Department of Education, the VR agency has cooperative agreements with 27 individual public school districts in which we have cooperative VR-PS programs.

The scope and purpose of the agency's Innovation and Expansion Grant program is described in another section.

Through the years, South Carolina has developed an unprecedented network of thirteen state operated community Vocational Rehabilitation Centers. The first of these were constructed as local workshop facilities but, in recent years, the program in each of the centers built by the state has expanded so that it, in conjunction with those of the local office, now includes most of the array of services outlined in Section 503 of the new Rehabilitation law referring to Comprehensive Rehabilitation Centers. A complete statewide network of such centers is the Department's long-range goal.

The state's new Comprehensive Rehabilitation Center in West Columbia is a residential "intermediate care" facility designed specifically to meet the needs of the most severely handicapped individuals.

All of these resources, i.e. cooperative agreements, facilities, comprehensive rehabilitation centers, VR-PS programs, and Innovation and Expansion Grant programs, form an interlocking arrangement with local offices to provide a system of quality services for severely handicapped citizens.

Although most of the agency's cooperative programs are referred to in the Facilities Section of this plan, it is appropriate to mention here several agencies with whom revised agreements have recently been made.

Vocational Education - Special Education - Vocational Rehabilitation

A new cooperative agreement has recently been signed between the Department of Vocational Rehabilitation and the State Department of Education as a basic commitment by these two agencies to provide comprehensive vocational and educational services to handicapped individuals eligible for services under the Education of Handicapped Children Act of 1975 (P.L. 94-142), the Vocational Education Amendments (P.L. 94-482), and the Rehabilitation Act of 1973 (P.L. 93-112). This agreement articulates the responsibilities and systems for collaborative efforts between Vocational Rehabilitation, the Office of Vocational Education and the Office of Programs for the Handicapped to carry out the mandates of Congress as they relate to these two agencies.

CETA

The Department has established a cooperative agreement with the Office of the Governor, Manpower Division, whereby CETA funds are made available to Vocational Rehabilitation to provide medical examinations, medical services, and vocational assessment to CETA participants. Those participants who are eligible for vocational rehabilitation services are provided such services as necessary to alleviate their handicapping condition before continuing their prescribed CETA program. The service delivery system requires close planning and coordination between the Employment Security Commission (intake agency for CETA), Vocational Rehabilitation (medicals and vocational assessment), and Technical Education (vocational training).

Medical Programs

There has been a concerted effort to work more closely with rehabilitation hospitals such as the Charlotte Rehabilitation Hospital to increase services for spinal cord injury cases and to facilitate the movement of such clients from that institution to the agency's Comprehensive Center for vocational evaluation, adjustment, physical therapy, training and other rehabilitation services.

In cooperative programs with Richland Memorial Hospital and Providence Hospital in Columbia, a renewed emphasis will be placed on Vocational Rehabilitation's role in providing post-medical treatment programs for Cancer and Cardiac patients rather than the bill-paying function.

The groundwork for a more involved cooperative agreement with the State Cancer Society, one County Cancer Society, as well as several doctors whose practice is primarily in the oncology area, has been established in an effort to increase services to cancer victims, most of whom are considered severely handicapped. An I & E grant is pending to provide funds to develop a selection process for serving cancer cases.

A reciprocal agreement with the three Multiple Sclerosis Societies has been signed but no referrals have been made to date. An effort will be made during the coming year to implement this agreement. Nearly all cases referred should be considered severely handicapped.

REHABILITATION FACILITIES

For the past twenty years, the South Carolina Vocational Rehabilitation Department has made major strides toward building a complete network of state-wide and local facilities to provide specialized services needed by many handicapped individuals. Three major types of facilities are outlined in this section: (a) Vocational Rehabilitation Centers, (b) Youth Service Programs, and (c) Statewide Facilities. During the coming year, the Department expects to refine these programs so that they more fully reinforce the agency's general counseling and guidance program.

1. Vocational Rehabilitation Centers

Realizing the special needs of the severely disabled related to assessment and adjustment, the Department embarked many years ago on a mission to construct a network of specially designed community-based Vocational Rehabilitation Centers. Program components in the thirteen present centers include counseling, assessment, information and referral, personal, social and work adjustment training, production experience, work activity, food service and other necessary services. The Centers have been constructed in such a manner that the special needs of the severely disabled are met, e.g. complete removal of architectural barriers, appropriate work space, rest areas, and adequate space to house special program components for the severely disabled.

The South Carolina Legislature has provided non-reoccurring funds to purchase land and construct or purchase buildings for ten of the thirteen present centers as they have recognized the need to provide evaluation, adjustment and extended employment services for the severely disabled. Two of these are presently under construction and a bill providing funds to construct an additional two Centers is expected to receive legislative approval yet this year.

To improve the service delivery system in each of the Centers, adjustment services are being developed to assure that individual client needs are being met in the areas of personal living skills, vocational, health and nutrition, education, and activities of daily living. A structured adjustment program utilizing techniques such as individual and group counseling, behavior modification, classes, field trips, and outside resources. Production activities will be developed and implemented in each rehabilitation center.

The Department feels strongly that rehabilitation facilities can plan an important role in preparing many clients for successful placement. Therefore, job-seeking skills will be emphasized in personal and social adjustment classes conducted in the rehabilitation centers. Additional instruction related to placement will be provided in FY 1980 in specific areas such as job interviewing, how to complete employment applications, personal grooming and dress, etc.

Work Activity Centers

Work Activity Centers for severely mentally retarded persons are operated within nine of the community-based Vocational Rehabilitation Centers. The primary purpose of the work activity programs, operated cooperatively with the South Carolina Department of Mental Retardation, is to provide comprehensive vocational rehabilitation services to the severely disabled who are of employable age and are functioning on such an intellectual and achievement level they cannot be served effectively in the traditional rehabilitation program.

The objectives of the work activity programs are to screen, assess, train (adjustment and vocational), and to place into suitable work situations individuals who are classified as severely mentally disabled and are functioning on such a level they are in need of a comprehensive, well-coordinated program of rehabilitation services.

Four Work Activity Centers will be added in the remaining Vocational Rehabilitation Centers during the next two years if additional funds are available.

2. Youth Service Programs

Through the years, the Department has steadily increased the number of cooperative programs with individual school systems in which VR personnel help prepare special education and other handicapped students for the working world. Twenty-seven such programs are now in operation throughout the state.

During the past two years, a reduction of VR staff in some of the VRPS programs has taken place as a result of role changes required by the Department's financial situation and changes in public school services to handicapped individuals. Except in selected circumstances, the basic VR staff housed within school systems now consists of a counselor and counselor assistant. Public schools now operate under a mandate to assess and serve handicapped individuals, thus relieving Vocational Rehabilitation of some duties previously performed. The roles of VRPS personnel will continue to be modified somewhat during FY 1980 in keeping with the updated agreement between VR and the school systems.

During the past year, the average age of public school students referred to Vocational Rehabilitation has been increased to about age 16. Such a shift will tend to assure that the handicapping condition of clients are more directly related to their employability and will tend to assure that substantial services are provided in a systematic way throughout the time individuals are involved in the total rehabilitation process. Individuals above age 15½ will continue to be accepted when VR services are required beyond those provided by the school system and when a program of substantial VR services can be developed for them.

School Work Adjustment Programs

In an effort to improve and expand vocational rehabilitation services to the youthful disabled, a series of satellite School Work Adjustment Programs have been developed through coordination with the South Carolina Department of Education. These programs will be further refined in FY 1980.

Satellite Workshops in School Systems

After analyzing the benefits of workshop facility services for youthful clients, a series of nine satellite workshops have been established in selected school settings throughout the state. During the past two years, such workshops have been initiated in York, Campobello, and Graniteville. In addition, a similar satellite workshop has been established in the Cedar Spring School for the Deaf in Spartanburg. An evaluation will continue to examine the possibility of establishing satellite workshops in other school systems if funds become available.

3. Statewide Facilities

During FY 1980, the Department will continue to operate and refine its network of statewide facilities designed to provide specialized services for various types of severely handicapped individuals. This includes facilities in settings operated by the Departments of Mental Health, Mental Retardation, Corrections, Youth Services, Industrial Commission, S. C. School for the Deaf and Blind, Health and Environmental Control, the Opportunity School in West Columbia, Technical Education, and the South Carolina Medical University, as well as the two rehabilitation centers for alcoholics operated by the Vocational Rehabilitation Department.

A statewide program for the deaf and hearing impaired, now completing its tenth year, will again be emphasized during the coming year. The thirty-five-member staff of this program has extensive training in various aspects of deafness and provide a unique set of services not elsewhere available.

The agency will also continue its intervention project for employed Alcoholics which has just completed its third year of operation. The Drug Addiction Project, a vocational evaluation program located within the South Carolina Addiction Center, has completed another successful year and will continue to maintain its service.

The comprehensive rehabilitation delivery system located at the Medical University Hospital will continue to provide a wide range of rehabilitation services to epileptics and individuals with seizure disorders of unknown etiology. As a result of this program expansion, medical, psychological, social and vocational rehabilitation services are now available to a greater number of severely handicapped individuals.

Utilization of Grant Funding

In South Carolina, the basic purpose of special project funds has been to support projects designed to expand or improve vocational rehabilitation services for specific groups of severely disabled people, such as deaf persons, cerebral palsy, epilepsy, mental illness or multiple sclerosis. The Department will continue to utilize available special project funds to improve service delivery systems to target groups of severely disabled identified as priority in its five-year-plan.

Facility improvement grants have been effectively utilized to improve client services in the state's network of community-based Vocational Rehabilitation Centers and the Comprehensive Rehabilitation Center in West Columbia.

Other facility improvement grant programs include a comprehensive vocational rehabilitation service system for severely disabled multi-handicapped persons operated in cooperation with the Multi-handicapped Center at Cedar Spring and a network of Satellite Work Adjustment Programs operated cooperatively with local public schools.

Particularly within the community-based rehabilitation centers, extended employment and evaluation sections have been expanded through facility improvement grant funds to accommodate more severely handicapped individuals.

In addition, Innovation and Expansion Grants have been implemented which emphasize two program areas which are considered in urgent need of attention from a national viewpoint to address the vocational rehabilitation needs of the severely handicapped: (1) improvement of services to effect optimal client placement, and (2) improvement of methods for referral, client processing, and evaluation of rehabilitation potential.

Two Innovation and Expansion Grants presently in operation include (a) A concentrated vocational rehabilitation service delivery program for the severely disabled, particularly the youthful severely disabled, focusing on use of specialized assessment and work adjustment methods and techniques, and (b) an adjustment information and resource laboratory: a method of facilitating an effective client service delivery system for the improvement of personal, social, and work adjustment training and placement for the severely disabled.

COMPREHENSIVE REHABILITATION CENTER

An eighteen-bed Comprehensive Rehabilitation Center was established in West Columbia two years ago to provide a full array of services to the most severely handicapped individuals served by the Department. The disabling conditions of clients referred by counselors throughout the state include paraplegia, quadraplegia, other neurological disorders, strokes, amputations, and arthritis.

The service delivery system developed to meet the individualized needs of clients include: physical therapy, occupational therapy, activities of daily living, personal and social adjustment, speech and hearing services, vocational evaluation, psychological services, and related support services. The eighteen bed residential unit includes dining and recreational facilities for both residents and "day-clients."

This Center has enabled the Department to serve severely disabled who would otherwise have to be sent out of the state at a considerable expense and, in addition, have their continuity of services reduced upon returning to their communities. The service system developed in this Center has heretofore been denied many South Carolinians because the combination of services has not been available to them in one location, particularly in a residential setting.

During the past year, 109 severely disabled clients from throughout the state have been served in the Center. It is obvious from the Department's followup survey that the Center is making substantial strides toward meeting the individualized needs of clients served.

The Center was licensed by the Department of Health and Environmental Control as an intermediate care facility, and received its renewal notice this past year with no noted deficiencies.

During the past year, the Department expanded the Center's out-patient program, using vans in the metropolitan Columbia area to transport severely disabled clients to the Comprehensive Center for individualized services. A need was found to serve a group of severely disabled who did not require residential care but could greatly benefit from the service program offered during the day.

To meet needs identified during its first year of operation, the Center added a physical therapy assistant. In addition, an additional nurse was employed to insure adequate nursing care on a twenty-four-hour-a-day, seven-day-a-week basis for the eighteen residential clients. It is anticipated that during the coming year, an additional nurse or aide will be added to assist the nursing staff if funds are available.

It is anticipated that the residential unit will be expanded to increase the Center from its present eighteen-bed capacity to a forty-four-bed capacity when funding becomes available. The Center has served 109 residential severely handicapped clients during the past year and presently has a waiting list of fifty.

TRAINING

The Training Director develops a yearly training plan based on input he receives from all types of personnel regarding training needs, programmatic problems, changes, and priorities which need to be addressed, changes in roles, client growth needs, and the results of case reviews and other program evaluation efforts.

The primary training theme for FY 1980 will be to emphasize ways counselors and adjustment instructors can deal directly with the functional limitations of their clients. Training programs will stress basic counseling skills, growth relationships, better utilization of medical and psychological consultation, vocational implications of handicapping conditions, and provision of real, substantial services, particularly for severely disabled individuals.

A series of inservice training programs has been planned for FY 1980 to (a) acquaint all levels of personnel with the objectives and requirements of the Rehabilitation Act of 1973 and 1978 amendments, (b) help firstline supervisors increase their effectiveness in supervision, program management and development of improved patterns of service, (c) help counselors and facility personnel improve their evaluation capabilities, (d) strengthen the adjustment services and placement programs, and (e) modify staff attitudes and expertise in serving the severely disabled.

Special staff development programs have been designed for quality control specialists, area supervisors, statewide facilities, local rehabilitation center personnel, trust fund and SSI counselors and several types of specialty counselors.

One of the major emphases of inservice training for the year will be to reduce deficits noted in case reviews concerning documentation of substantial handicaps to employment and lack of substantial counselor involvement with some cases. The Case Service Manual has been revised to reflect changes in regulations concerning eligibility, provision of services, and documentation. Training of counseling, evaluation, and support personnel will be conducted throughout the year so that these changes will be communicated to all personnel and incorporated into their standard operating procedures.

ATTACHMENT 9.11(a)A: METHODS OF ADMINISTRATION (CIVIL RIGHTS)

(a) Pursuant to the provisions of Title VI of the Civil Rights Act of 1964, and the Regulations issued thereunder, the vocational rehabilitation program administered by the South Carolina Agency of Vocational Rehabilitation is being and will continue to be conducted in such manner that no person in the United States will be excluded from participation in, be denied the benefits of, or be subjected to discrimination under such program on the ground of race, color, or national origin. The state agency is in fact administering the program in accordance with the law, the Regulations, and the policies and practices enumerated in Section (b) below.

(b) The State agency will conduct the vocational rehabilitation program in accordance with the provisions of Title VI and the Regulations issued thereunder, and, more specifically, will follow policies and practices including but not limited to those described below.

(1) No individual will on the ground of race, color, or national origin, be denied any service, financial aid, or other benefit provided under the vocational rehabilitation program or be provided a service, financial aid, or other benefit which is different, or is provided in a different manner, from that provided to others under the program. Such services, financial aid, or other benefits include all vocational rehabilitation services under the Vocational Rehabilitation Act, the Regulations Governing the Vocational Rehabilitation Program and the approved State Plan, and such related matters as the making of appointments, the designation of waiting periods, the selection of employment objectives, the quality of the services provided, and the selection of assignment of operators of vending stands and other small businesses.

(2) No individual will on the ground of race, color, or national origin be subjected to segregation or separate treatment in any matter related to receipt of any service, financial aid, or other benefit under the vocational rehabilitation program, nor will the individual be restricted in any way in the enjoyment of any advantage or privilege enjoyed by others receiving any service, financial aid, or other benefit under the program. This includes any distinction with respect to spaces where services are offered or provided, housing and eating facilities, waiting rooms, and restrooms. Neither will separate times be set

aside on the ground of race, color, or national origin for the provision of services.

(3) Employees of the agency, or of other agencies or organizations participating in the vocational rehabilitation program, will not be assigned caseloads or clientele on the basis of race, color, or national origin of the persons being served.

(4) Individuals will not, on the ground of race, color, or national origin, be denied the opportunity to participate (Other than as employees except as provided in (5) below) in the vocational rehabilitation program or be afforded an opportunity to do so which is different from that afforded others. This includes opportunities to participate as providers of any services, as conferees, observers, consultants, or advisors.

(5) The agency will make no distinction on the ground of race, color, or national origin in its employment practices with respect to individuals seeking employment or employed under a part of the vocational rehabilitation program where a primary objective of that part is to provide employment. This includes situations in which the employment is provided to students, fellows, interns, residents, or others in training for related employment (including research associates or assistants in training for research work), or to provide remunerative activity to individuals who because of severe handicap cannot be readily absorbed into the competitive labor market.

(6) In making determination of the types of activity to be included in the Vocational rehabilitation program or the geographical areas in which such program or activity will be carried out, or the persons who will be served or afforded an opportunity to participate, criteria or methods of administration will not be used which have the effect of subjecting individuals to discrimination because of their race, color, or national origin, or have the effect of defeating or substantially impairing accomplishment of the objectives of the program as respect individuals of a particular race, color, or national origin.

(7) The agency recognized that its obligation to conduct the program in accordance with the requirements of the law and Regulations extends not only to those activities which are conducted directly by the State Agency but also to all activities under the

program which are conducted by other agencies, institutions, organizations, or political subdivisions, through contracts, or other arrangements with the agency. This includes any activity supported with the aid of Federal financial assistance or with the aid of any non-Federal funds, property, or other resources required to be expended or made available for the program to meet matching requirements, and also includes other conditions which must be met in order to receive the Federal financial assistance.

(8) The agency will not approve any application, or make any expenditures, for the establishment of a workshop or rehabilitation facility, through the expansion, remodeling, or alteration of existing buildings, or the acquisition of initial equipment, until it obtains or furnishes an assurance in a form approved by the Commissioner of Vocational Rehabilitation that the applicant will comply with all the requirements imposed by or pursuant to the Act or the Regulations.

(9) The agency will maintain such records and submit such reports as may be required by the Commissioner of Vocational Rehabilitation to assure compliance with the regulations and will permit access during the normal business hours of the agency to such of its facilities, records, and other sources of information as may be pertinent to ascertain compliance with the regulations, and will require the same from other agencies, institutions, organizations, or political subdivisions participating in the program.

(10) The agency will make available to participants, beneficiaries, and other interested persons such information regarding the provisions of the Act and the Regulations, and make available such information in such manner, as may be required by the Commissioner of Vocational Rehabilitation to apprise such persons of the protections against discrimination assured them by the Act and the Regulations and will require the same from other agencies, institutions, organizations, or political subdivisions participating in the program.

METHODS OF ADMINISTRATION

(a) The agency will inform and instruct its own staff concerning their obligations under the Act, the Regulations, and the Statement of Compliance filed by the State agency by:

(1) Making copies of all pertinent documents available to the entire staff;

(2) Conducting as a regular part of its in-service training program, meetings to explain to all staff the intent and meaning of such documents and to instruct them as to their obligation in carrying out the policies contained therein;

(3) Conducting through regular supervisory channels, constant review of practices and policies to assure that no individual is being discriminated against because of race, color, or national origin.

(b) The agency will inform and instruct other agencies, institutions, organizations, political subdivisions, and vendors which provide services, financial aid, or benefits under the program of their obligations to comply with the Act, the Regulations, and the Statement of Compliance filed by the agency as a condition to their initial or continued financial participation in the program. This will be accomplished:

(1) By making clear, through written materials and personal explanations on a group or individual basis, the requirements of the Civil Rights Act and implementing Regulations and the policies and undertakings of the Department to effectuate these requirements;

(2) Where another agency, institution, organization, political subdivision, or vendor conducts any activity or furnishes vocational rehabilitation services under a subgrant, contract, or other arrangements, by assuring itself that such activity will be conducted or such services will be furnished in accordance with the agency's obligation in its Statement of Compliance. This will be accomplished in appropriate cases by determining that the agency, institution, organization, political subdivision, or vendor has executed an assurance in the form prescribed by the Department of Health, Education, and Welfare which is currently effective and applicable to the program under which the activity is conducted or the services furnished. In other cases, the Department will take appropriate steps to satisfy itself that

the other agency, institution, organization, political subdivision, or vendor has agreed to and is conducting the activity or furnishing the service in accordance with the provision of the Statement of Compliance. This includes the use of memoranda of understanding setting forth specific obligations and undertakings of the other agency, institution, organization, political subdivision, or vendor or certifications of compliance on each voucher presented for payment to the Department. In any event, regular on-the-spot checks will be made by the Department staff to assure the compliance of any other agency, institution, organization, political subdivision, or vending participating in the program.

(c) The agency will inform clients, participants, potential clients and participants, and other interested persons, of the fact that services, financial aid, and other benefits under the program are provided on a nondiscriminatory basis, as required by the Civil Rights Act, and of their right to file a complaint with the State agency, of their right to file a complaint with the Federal agency, or both, if they believe that discrimination on the ground of race, color, or national origin is being practiced. This will be accomplished by:

(1) Written notice to all clients and to all applicants; and

(2) Inclusion of appropriate explanatory statements in public information materials which will be made available to interested persons and particularly to those individuals and groups which may be sources of referrals and applications.

(d) All complaints concerning discrimination because of race, color, or national origin shall be filed in writing, shall describe the type of discrimination alleged, and shall indicate when and where such discrimination took place and describe any pertinent facts and circumstances surrounding the alleged discrimination. The complaint shall be signed by the person making it. All complaints shall be addressed to the State Administrator who will assign them for thorough investigation through established supervisory channels. After the complaint has been looked into, the Administrator shall determine whether or not any discriminatory practice has been carried on and if he determines that one has, he will take such actions as may be necessary to correct past practices and to prevent the recurrence of such discrimination.

The complainant shall be advised in writing as to the findings of the agency regarding the complaint.

The agency will maintain adequate records to show the action taken as a result of each complaint and will make such information available to the responsible departmental official or his duly authorized representative.

(e) At least once a year and more frequently in those cases where discriminatory practices are alleged or suspected, a representative of the Department will visit institutions, organizations, and political subdivisions participating in the program to assure that their practices conform to Title VI of the Civil Rights Act and the Regulations issued pursuant thereto as reflected in the Statement of Compliance. Through regular supervisory reviews, the State Administrator and supervisory personnel will determine whether discriminatory practices are being engaged in by Department personnel and will take such corrective action as may be required to insure that their actions are consistent with Title VI of the Civil Rights Act and the Regulations issued pursuant thereto as reflected in the Statement of Compliance.

PERSONNEL

GUIDELINES FOR EMPLOYMENT OF PERSONNEL
Section 1

The continued success of this Department's efforts in rehabilitating the handicapped depends on recruiting of qualified individuals to perform the tasks required to carry out the Departmental activities.

The following points must be carefully followed by supervisory personnel:

1. Is the position to be filled? Before any supervisor proceeds to discuss position vacancies with any applicants, he must first determine, through appropriate supervisory channels, that the position in question is to be filled. Once it has been verified that the position is to be filled, the supervisor should carefully review the job content of the position in order to determine the minimum qualifications necessary before any recruiting efforts are made.
2. Recruiting sources: In recruiting applications all potential sources of qualified individuals must be considered. People who have already proven themselves in the local community should be carefully considered as potential applicants. It should also be remembered that the State Office may have knowledge of applicants who have expressed an interest in the field of rehabilitation and who are believed to be qualified for further consideration.
3. Reception of applicants: Applicants, whether employed or not, can spread good will for our Department or give it a bad name, based on the treatment received. To maintain our good image and thus continue to attract good applicants, keep these suggestions in mind:
 - (a) Treat each applicant with courtesy.
 - (b) Keep up with interpretations of the Civil Rights Law and the Department's and State's policies regarding employment practices.
 - (c) Do not make vague promises, or tell any applicant to keep checking back if there are no foreseeable suitable job openings.
4. Preliminary interviews: The Initial Interview Card is to be used in conjunction with the preliminary interview. This information should be carefully completed, since this data is needed for statistical reports required of the Department. The card is to be forwarded to the Personnel Office and a copy is to be maintained in the local office. You should notice that an application is given to an applicant only after it appears that the individual meets or exceeds qualifications.
5. Preliminary screening: Any preliminary screening of an applicant should be based on the following information:
 - (a) Application Blank: Obtain an application from an applicant only if the applicant appears suitable for employment after the preliminary interview. Insure that the application is completed and signed. If there are any chronological gaps in the employment history, school attendance etc. these should be checked.

Revised 5/28/74

PERSONNEL

EMPLOYEE GRIEVANCE AND
APPEAL PROCEDURES

3-4

PURPOSE:

The purpose of this Policy is to provide a means whereby an employee who has six months of satisfactory employment with the Vocational Rehabilitation Department and feels that he has been subjected to unfair, discriminatory or abusive treatment may secure a hearing without delay and be assured of a prompt, orderly and fair response to the grievance or appeal.

POLICY:

The South Carolina Vocational Rehabilitation Department recognizes the right of employees to present and seek answers to grievances without fear of restraint, interference, coercion, discrimination or reprisal.

Employees who submit formal grievances may elect to be accompanied by another employee of his own choosing.

Members of the Grievance and Appeal Committee, presently employed personnel involved in a grievance hearing, and witnesses may attend Committee hearings without charge to leave or loss of pay. Employees may obtain from their supervisors a reasonable amount of time off without charge to leave or loss of pay for the purpose of securing advice on rights and privileges provided by this Policy and for obtaining information and assistance pertaining to their grievance which can only be obtained during normal working hours.

The Personnel Office will explain the procedures in detail to any employee and give assistance if needed. The predominant role of the Personnel Office in settling grievances is that of an advisor functioning objectively in a staff capacity. The Personnel Office is available to counsel with the employee and the supervisor in any phase of the formal grievance procedure.

Upon completion of the Employee Grievance and Appeal Committee hearing and the final decision, a copy of the Committee transcripts and other related correspondence will be forwarded to the Personnel Office for filing in the employee's personnel folder. All transcripts, records and findings of the Committee are property of the South Carolina Vocational Rehabilitation Department and are confidential. The records will not be made available for review to anyone except Departmental employees designated by the Commissioner of the South Carolina Vocational Rehabilitation Department.

PROCEDURE:

The formal grievance and appeal procedure will not be utilized until the employee has discussed his grievance with his immediate supervisor on an informal basis. The Immediate supervisor should make every effort

PERSONNEL

EMPLOYEE GRIEVANCE AND
APPEAL PROCEDURES
3-4 (continued)

to resolve the problem on an informal basis. The employee's immediate supervisor should consult with his immediate supervisor concerning the problem or grievance. If the problem cannot be resolved on an informal basis, the employee may then utilize the formal grievance and appeal procedure. The following procedure shall regulate the submission, presentation and processing of all employee grievances.

Step One

If an employee has a problem or a grievance which cannot be resolved through the normal process of informal discussion, he may complete SCVR Form 64, Employee's Request for a Formal Grievance Hearing (see Exhibit 1). Copies of this form should be sent to the immediate supervisor and to the Personnel Office. After an employee requests a formal hearing, the immediate supervisor will schedule a hearing within five (5) calendar days after the formal request is filed and will hear the grievance and review the facts in an impartial manner. The immediate supervisor may call higher level supervisors into the discussion if the employee agrees, or the immediate supervisor may consult with higher level supervisors outside the formal hearing to secure advice before making a decision.

The employee shall receive an answer within ten (10) calendar days after the start of the first step of the hearing, or the employee will be notified and advised as to when an answer may be expected. The immediate supervisor will complete SCVR Form 65, Summary of Supervisory Grievance Hearing (see Exhibit 2), and send copies to the employee requesting the hearing and to the Personnel Office.

When the employee is notified of the decision of the immediate supervisor, the employee will be advised that he has the right to appeal the immediate supervisor's decision if a mutually agreeable decision has not been made.

Step Two

If the employee feels that the decision reached in the first step is not satisfactory or if the employee fails to receive an answer within the designated period of time provided in the first step, the matter may be referred by the employee to the Employee Grievance and Appeal Committee. The Commissioner of the Vocational Rehabilitation Department shall appoint an ad hoc Employee Grievance and Appeal Committee which shall be composed of three (3) employees of the Department. Any request for review at this stage will be submitted in writing to the Commissioner of the Vocational Rehabilitation Department within five (5) calendar days after receipt of the first step decision. The employee should state clearly the nature of his grievance and why the decision in the first step is unfair.

The Employee Grievance and Appeal Committee will schedule a hearing within ten (10) calendar days after receiving the request for a hearing. The Committee shall conduct whatever hearings, interrogation, investigations and fact-finding activities necessary to determine the facts.

PERSONNEL

EMPLOYEE GRIEVANCE AND
APPEAL PROCEDURES
3-4 (Continued)

At the conclusion of the hearings by the Employee Grievance and Appeal Committee, it will be the responsibility of the Committee to inform the Commissioner of the Department within ten (10) calendar days after the Committee hearing of the details of the problem, the reasons why it was not resolved at lower levels, and recommendations of the Committee. The Commissioner of the Department will make a decision within five (5) calendar days after receiving the decision and recommendations of the Committee, and his decision will be given to the employee, with copies to all concerned parties.

STATE EMPLOYEES GRIEVANCE COMMITTEE

Any employee who has six (6) months satisfactory service with the State may appeal a decision of the Department to the State Employees Grievance Committee. Such appeal must be in writing and submitted to State Personnel Division within ten (10) calendar days following the decision of the Department.

The Vocational Rehabilitation Department's grievance and appeal procedure shall not exceed the total of forty-five (45) calendar day time limit from beginning to end. Should the time period for the final decision exceed the forty-five (45) calendar day limit, an employee has the right to appeal directly to the State Employee Grievance Committee.

EQUAL EMPLOYMENT OPPORTUNITY
3-5PURPOSE:

In accordance with the South Carolina Human Affairs Law, the Rehabilitation Act Amendments of 1974, the Equal Employment Opportunity Act of 1972 and sound personnel practices the South Carolina Vocational Rehabilitation Department provides for equal practices in employment, terminations, up-grading, training, demotions and treatment of individuals.

GENERAL POLICY:

The Equal Opportunity Program of this Department applies to both employees and applicants. Both are to be considered for opportunities with this Department on the basis of job-related individual differences and not solely on the basis of factors such as sex, race, color, creed, age, national origin, or physical disability. This Department adheres to this policy not solely because of legal requirements, but because it is a basic element of human dignity.

COMMUNICATING OBJECTIVES:

The Personnel Director is the Equal Opportunity Officer and through the Commissioner periodically reaffirms the Equal Opportunity Program. Each supervisor is responsible for taking positive affirmative actions within his specific work area. Supervisor responsibilities extend to explaining and discussing the affirmative action program with subordinates.

CLASSIFICATION AND COMPENSATION:

This Department continuously reviews the classification and compensation levels of its employees to assure equal pay for equal work regardless of sex, age, race, physical disability.

EMPLOYMENT PROCESS (RECRUITMENT, SELECTION AND PLACEMENT):

Supervisors should make every effort to attract, recruit and employ qualified employees from all minority groups. Applicants are accepted for positions on the basis of job-related individual differences and not on the basis of factors such as race, religion, national origin, sex, or physical disability.

EXCERPTS FROM S. C. VOCATIONAL REHABILITATION DEPARTMENT ADMINISTRATIVE MANUAL

PERSONNEL

EQUAL EMPLOYMENT OPPORTUNITY
3-5 (Concluded)

OTHER PERSONNEL ACTIONS (PROMOTIONS, DEMOTIONS, TERMINATIONS, TRAINING,
PERFORMANCE APPRAISALS):

Supervisors should keep the State Office Staff informed as to names of employees who can be considered for promotional and training opportunities. It is the responsibility of supervisors to counsel with employees on a periodic basis, thereby providing an opportunity to discuss grievances, training needs and career opportunities. Exit interviews should be conducted by supervisory staff to find reasons and solutions to any turnover problems.

WORK ENVIRONMENT:

Special efforts should be made by supervisory staff to assure that the work environment and atmosphere does not include discriminatory elements. An important element in eliminating discrimination in the work environment is the orientation of new employees.

COMPLAINT PROCEDURES:

Any employee who feels that they have been discriminated against should consult with their supervisor and refer to the Grievance Procedure Policy.

FIELD MANAGEMENT

CIVIL RIGHTS
Section 3CIVIL RIGHTS:

Pursuant to the provisions of Title VI of the Civil Rights Act of 1964, and the Regulations issued thereunder, the Vocational Rehabilitation Department is conducted in such manner that no person is excluded from participation in, be denied the benefits of, or be subjected to discrimination under such program on the ground of race, color or national origin.

No individual will on the ground of race, color or national origin, be denied any service, financial aid, or other benefit provided under the vocational rehabilitation program or be provided a service, financial aid, or other benefit which is different, or is provided in a different manner, from that provided to others under the program. Such services, financial aid, or other benefits include all vocational rehabilitation services under the Vocational Rehabilitation Act, the Regulations Governing the Vocational Rehabilitation Program and the approved State Plan, and such related matters as the making of appointments, the designation of waiting periods, the selection of employment objectives, the quality of the services provided, and the selection of assignment of operators of vending stands and other small businesses.

No individual will on the ground of race, color or national origin be subjected to segregation or separate treatment in any matter related to receipt of any service, financial aid, or other benefit under the vocational rehabilitation program, nor will the individual be restricted in any way in the enjoyment of any advantage or privilege enjoyed by others receiving any service, financial aid or other benefit under the program. This includes any distinction with respect to spaces where services are offered or provided, housing and eating facilities, waiting rooms, and restrooms. Neither will separate times be set aside on the ground of race, color or national origin for the provision of services.

Additional information pertaining to Civil Rights may be found in the Case Services Manual.

Hearing On Applicant's Appeals - An applicant for or recipient of vocational rehabilitation services under the State Plan who is dissatisfied with any state agency decision with regard to the furnishing or denial of services may file a request in writing for review and re-determination of that decision and such review shall be made by the Supervisor of Rehabilitation Services or his designated representative.

Opportunity for a fair hearing before the Department or the state administrator will be granted to any individual whose application for vocational

FIELD MANAGEMENT

CIVIL RIGHTS
Section 3 (Concluded)

rehabilitation services under the plan is denied or is not acted upon with reasonable promptness, provided the person makes the request in writing.

The standards and procedures adopted by the Department to ensure a fair hearing are:

1. Applicants for vocational rehabilitation shall be advised of their right to an opportunity for a fair hearing in the event the application is denied or is not acted upon with reasonable promptness.
2. The hearing shall be held at a time and place convenient to the individual requesting a fair hearing. Such individual will be notified in writing as to the time and place of such hearing within a reasonable time in advance of such hearing. Such individual will also be notified in writing of his right to be represented at the hearing by counselor or a friend, if he so desires, and he will be so notified in time to have an adequate opportunity to prepare his case.
3. At the hearing, the individual, and his representative if he desires to have one, will have an adequate opportunity for cross-examination and to present evidence in his behalf.
4. The hearing shall be held before an official or officials of the State Agency who, insofar as possible, have not taken part in the action under consideration. Authority to make the final decision based upon the record shall be exercised by the Department or the state administrator.
5. The verbatim transcript of the testimony and exhibits, or an official report containing the substance of what transpired at the hearing, together with all papers and reports filed in the proceedings and the hearing officer's recommendation, shall constitute the exclusive record for decision and shall be available to the individual at any reasonable time.
6. The decision shall set forth the issue, principle, and relevant facts brought out at the hearing, the pertinent provision in law and in agency policy, and the reasoning that led to the decision. The individual shall be forwarded a copy of the decision or shall be advised in writing of the content.

EXCERPTS FROM S. C. VOCATIONAL REHABILITATION DEPARTMENT CASE SERVICE MANUAL

Chapter 1

DEVELOPMENT OF COMMUNITY RESOURCES AND REFERRAL SOURCES

The Vocational Rehabilitation Department exists for the benefit of the disabled persons of the state. Secondly, it exists for the benefit of society since the economy of the state is affected. The staff assumes the role of representing both the handicapped individual and the state in providing such services as may be necessary in the complete rehabilitation of the disabled person. It is the responsibility of the staff to insure that the disabled person is informed of the services that are available for making him a useful, self-reliant, and self-sufficient citizen.

Vocational Rehabilitation is a community function. The Vocational Rehabilitation staff can furnish leadership and coordination, but they need the help and cooperation of community facilities, agencies, and individuals. The staff should have a continuing system for developing and improving community relationships. They should know their community, the leaders, and the resources. They should participate in and affiliate with groups interested in human welfare, such as civic groups, councils of social work, mental hygiene societies, county health councils, educational clubs, and other such organizations. They should assume a leadership role in developing community facilities which may be needed in the rehabilitation process. The staff should be familiar with the details of cooperative agreements between the Vocational Rehabilitation Department and other state-wide agencies. They should be alert to the opportunities for developing close working relationships on a local level.

Referral Sources in the Community

The establishment and the development of an organized system of referrals is the first basic principle necessary to the successful operation of a vocational rehabilitation program. This system should insure a regular flow of applicants with a distribution among age, sex, race, disabilities, and background. Such distribution is necessary in order to insure that all groups are reached. The counselor should maintain a schedule of regular contacts with education, health, welfare, and social agencies, physicians and other individuals who serve handicapped persons. The counselor should arrange his itinerary so that all referral sources are visited regularly and so that prospective clients may be seen without delay or inconvenience.

The local school system is a fruitful referral source. It has been found that an effective method of locating referrals in schools is for the counselor to discuss the vocational rehabilitation program and eligibility requirements before each senior class at least once each year. Since many handicapped children do not reach the senior class, the counselor should also contact members of the teaching staff and explain the vocational rehabilitation program and receive such referrals.

Chapter 12

CIVIL RIGHTS

Pursuant to the provisions of Title VI of the Civil Rights Act of 1964, and the Regulations issued thereunder, the Vocational Rehabilitation Department is conducted in such manner that no person is excluded from participation in, be denied the benefits of, or be subjected to discrimination under such program on the ground of race, color or national origin.

No individual will on the ground of race, color or national origin, be denied any service, financial aid, or other benefit provided under the vocational rehabilitation program or be provided a service, financial aid, or other benefit which is different, or is provided in a different manner, from that provided to others under the program. Such services, financial aid, or other benefits include all vocational rehabilitation services under the Vocational Rehabilitation Act, the Regulations Governing the Vocational Rehabilitation Program and the approved State Plan, and such related matters as the making of appointments, the designation of waiting periods, the selection of employment objectives, the quality of the services provided, and the selection of assignment of operators of vending stands and other small businesses.

No individual will on the ground of race, color or national origin be subjected to segregation or separate treatment in any matter related to receipt of any service, financial aid or other benefit under the vocational rehabilitation program, nor will the individual be restricted in any way in the enjoyment of any advantage or privilege enjoyed by others receiving any service, financial aid or other benefit under the program. This includes any distinction with respect to spaces where services are offered or provided, housing and eating facilities, waiting rooms and restrooms. Neither will separate times be set aside on the ground of race, color or national origin for the provision of services.

The counselors and other staff members will inform and instruct other agencies, institutions, organizations, political subdivisions, and vendors which provide services, financial aid or benefits under the program of their obligations to comply with the Act, the Regulations and the Statement of Compliance filed by the agency as a condition to their initial or continued financial participation in the program. This will be accomplished:

- (1) By making clear, through written materials and personal explanations on a group or individual basis, the requirements of the Civil Rights Act and implementing Regulations and the policies and undertakings of the Department to effectuate these requirements.

- (2) Where another agency, institution, organization, political subdivision, or vendor conducts any activity or furnishes voca-

tional rehabilitation services under a subgrant, contract or other arrangements, by assuring itself that such activity will be conducted or such services will be furnished in accordance with the agency's obligation in its Statement of Compliance. This will be accomplished in appropriate cases by determining that the agency, institution, organization, political subdivision, or vendor has executed an assurance in the form prescribed by the Department of Health, Education and Welfare which is currently effective and applicable to the program under which the activity is conducted or the services furnished. In other cases, the Department will take appropriate steps to satisfy itself that the other agency, institution, organization, political subdivision or vendor has agreed to and is conducting the activity or furnishing the service in accordance with the provision of the Statement of Compliance. This includes the use of memoranda of understanding setting forth specific obligations and undertakings of the other agency, institution, organization, political subdivision or vendor or certifications of compliance on each voucher presented for payment to the Department. In any event, regular on-the-spot checks will be made by the Department staff to assure the compliance of any other agency, institution, organization, political subdivision or vending participating in the program.

The Vocational Rehabilitation Staff will inform clients, participants, potential clients and participants and other interested persons, of the fact that services, financial aid and other benefits under the program are provided on a nondiscriminatory basis, as required by the Civil Rights Act, and of their right to file a complaint with the State agency, or their right to file a complaint with the Federal agency, or both, if they believe that discrimination on the ground of race, color or national origin is being practiced. This will be accomplished by:

- (1) Written notice to all clients and to all applicants; and
- (2) Inclusion of appropriate explanatory statements in public information materials which will be made available to interested persons and particularly to those individuals and groups which may be sources of referrals and applications.

All complaints concerning discrimination because of race, color or national origin shall be filed in writing, shall describe the type of discrimination alleged, and shall indicate when and where such discrimination took place and describe any pertinent facts and circumstances surrounding the alleged discrimination. The complaint shall be signed by the person making it. All complaints shall be addressed to the Department Commissioner who will assign them for thorough investigation through established supervisory channels. After the complaint has been looked into, the Commissioner shall determine whether or not any discriminatory practice has been carried on and if he determines that one has, he will take such actions as may be necessary to correct past practices and to prevent the recurrence of such

discrimination.

The complainant shall be advised in writing as to the findings of the agency regarding the complaint.

The Department maintains adequate records to show the action taken as a result of each complaint and will make such information available to the responsible departmental official or his duly authorized representative.

At least once a year and more frequently in those cases where discriminatory practices are alleged or suspected, the counselor will visit vendors, institutions, organizations and political subdivisions participating in the program in his geographical area to assure that their practices conform to Title VI of the Civil Rights Act, and a statement in writing will be submitted through the Area Supervisor to the State Office.

Civil Rights Compliance Report on Case Review by Program Specialist

1. Civil Rights Compliance Report for Counselors.
Through out the case study the Program Specialist should be alert to detect any evidence in the folder that the counselor could improve his performance in case development as it related to full compliance with the Civil Rights regulations. A special form is provided to record his findings. This form should be completed on each counselor when the initial case study is made and the report is submitted to the Supervisor, Division of Case Services. A copy of the form is included herein.
2. Civil Rights Compliance Annual Report of Offices.
This form is completed yearly on each office by a program specialist from the Division of Rehabilitation Services. A copy is included herein.

Reviewer

HEARINGS ON APPLICANT'S APPEALS

Administrative Review

An applicant for or recipient for vocational rehabilitation services under the State Plan who is dissatisfied with any state agency decision with regard to the furnishing or denial of services may file a request in writing for review and redetermination of that decision and such review shall be made by the supervisor of rehabilitation services or his designated representative.

Opportunity for a fair hearing before the department of the state administrator will be granted to any individual whose application for vocational rehabilitation services under the plan is denied or is not acted upon with reasonable promptness, provided the person makes the request in writing.

The standards and procedures adopted by the Department to ensure a fair hearing are:

1. Applicants for vocational rehabilitation shall be advised of their right to an opportunity for a fair hearing in the event the application is denied or is not acted upon with reasonable promptness.
2. The hearing shall be held at a time and place convenient to the individual requesting a fair hearing. Such individual will be notified in writing as to the time and place of such hearing within a reasonable time in advance of such hearing. Such individual will also be notified in writing of his right to be represented at the hearing by counselor or a friend, if he so desires, and he will be so notified in time to have an adequate opportunity to prepare his case.
3. At the hearing, the individual, and his representative if he desires to have one, will have an adequate opportunity for cross-examination and to present evidence in his behalf.
4. The hearing shall be held before an official or officials of the state agency who, insofar as possible, have not taken part in the action under consideration. Authority to make the final decision based upon the record shall be exercised by the department or the state administrator.
5. The verbatim transcript of the testimony and exhibits, or an official report containing the substance of what transpired at the hearing, together with all papers and reports filed in the proceedings and the hearing officer's recommendation, shall constitute the exclusive record for decision and shall be available to the individual at any reasonable time.
6. The decision shall set forth the issue, principle and relevant facts brought out at the hearing, the pertinent provision in law and in agency policy, and the reasoning that led to the decision. The individual shall be forwarded a copy of the decision or shall be advised in writing of the content.
